

ARCHAEI MARY Chants

Vigil Sound Creation

December 4, 2016

MOTHER MARY: We will be redoing [the long files] by adding a sound at transitions.

JESUS CHRIST: The 24/7 vigils can begin. They are the one-hour slots at the Catholic Church in San Bruno California where they received the parishioners from San Francisco and Daly City.

By attendance, it did increase their faith.

Mandarin: The drive from San Francisco to San Bruno is about an half hour. The vigils can be at a church outside the city where there is parking.

EMPEROR LEAMTHE: A Catholic Church is not the bus station. However, you would see to securing the Church. You can have a rollout plan. You can have tear gas there.

SAINT DIANE: There is normally a coordinator who signs people up on the vigils. However it is kept confidential.

JESUS CHRIST: The coordinator is not necessary. You would want to have someone there every hour for the protection of the church itself. However if this does not work, then you would have a 12- or 10-hour vigils then.

MALACHI: The seminaries would have the 24/7 vigils then.

ANDREA SELESTOW: It is what we called a “tag” and you have a weekly hourly tag slot that you cover for a vigil.

Nancy of Oregon: It could be more than one tag slot that you take. And if you cannot cover it, someone else is found.

JESUS CHRIST: Then for the Churches outside the seminaries, there can be an 8-hour vigil to Archaei Mary.

MOTHER MARY: What you can do is to have a combination of options. You can have the vigil during the morning hours with their time slots at people's homes and the slots during the day hours at the Church. Those disabled at home, can join in at home during the day. They would order a CD from you.

Multiplication in the Science of Sound

GIZEL: There is a multiplication factor that happens when you have more than one person present. If you have 3 people together, it is squared to have the power of 9.

JESUS CHRIST: This is the science of sound— of the Gregorian chant liturgy— that was taken out by the criminal Roncalli¹ at Vatican II.

Now see why it is, that the sounds are audible, and while it is a grace to have the music, the words need to be spoken aloud.

MALACHI: It is also a truth that where 2 are gathered in my name, there I am that is Christ. This again is another alchemy.

For where two or three are gathered together in my name,
there am I in the midst of them.
Matthew 18:20

JESUS CHRIST: This is the universal Christ. The protection is the web of Light, of the universal Christ.

GIZEL: The chants you are given, written by myself and Michael Jackson and a few others, are not the same as the Gregorian chants, in that, they are multiplied by the sound itself.

When you have the chants as decrees and affirmation—as these are written— to have been so written, you are having the chant words *go out as action*, as a verb.

Michael Jackson: The sound then goes out, and as they are consecrated to Archaeli Mary, you therefore have an action not as the rap music which is to

¹ Roncalli, Pope John XXIII.

destroy not only the ghettos but America. Rap is as action words that is destructive going out. Rap is of an action sound that is destructive.

GIZEL: In these chants, you therefore have an action from the sounding of the words by a group of people, or singularly, that is more on the order of the 10,000 x 10,000 multiplication factor which is a science of sound. The sound forms into a physical matrix that is from the sound itself.

MOTHER MARY: Creation is by sound. *In the beginning was the Word* is explaining this science.

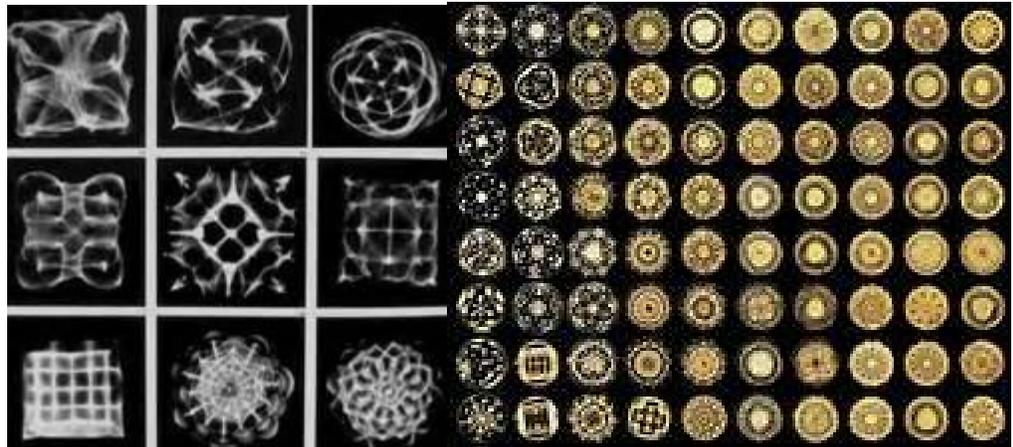

JESUS CHRIST: The crop circles are created by sound science. But you in the chants are creating is a holy sound. The crop circles are created from above the land to terrorize and frighten man of spacemen beaming down a sine wave science to create the crop circles.

After you have done these vigils, you do have a greater mastery over the Word to deal with terror of such kind, as you know the science of sound.

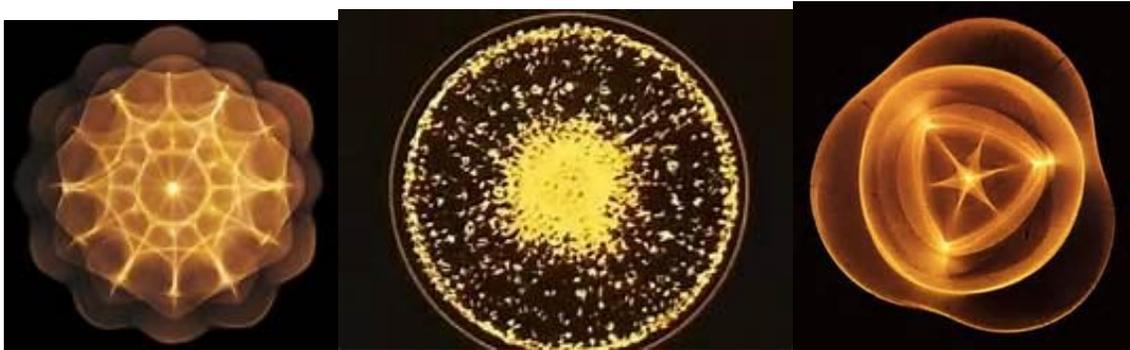

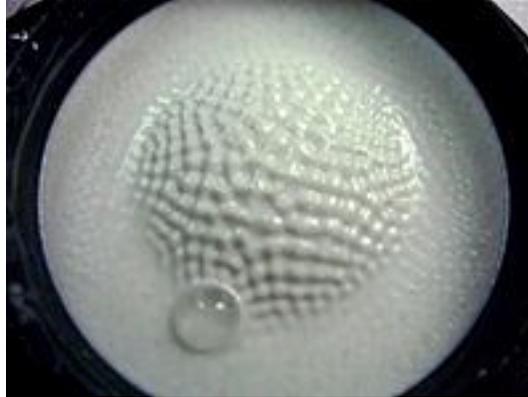

Nancy of Oregon: You can say, "Get thee behind me, Satan" and understand why Jesus commanded in these words and the sound of a command of Christ, as a Son of God.

MALACHI: He also commanded the sea waters even while Peter sank into the waters himself. You can command the demons to leave you, for example through the intonation of the word.

In the experiments by Hans Jenny, he put sand on a plate and vibrated sounds on to the sand and they formed into geometric shapes no different than seen in snowflakes.

Hans Jenny Experiment:
Cornstarch and water solution is formed
under the influence of sine wave vibration.

Michael Jackson: Now you understand that rap music is the sounding of hell. Not only from the whipping beat that accompanies the rap music, but the lyrics themselves as a destructive force not easily contended with.

Nancy of Oregon: The malls play this, and the vibration of the shopping is vastly lowered.

GIZEL: The rock beat itself is a syncopated beat.

Michael Jackson: It is not the harmony of the rhythms of joy, and therefore it was another way that there could be the destruction seen already through the Noah's Flood rebellion.

Nancy of Oregon: This was by having the rock stars reincarnating in England that came over from England to the United States.

COMMENTARY: My understanding of the Beatles, Rolling Stone and rock n' roll music is that it quickly causes with the syncopated beat, and this is also with jazz, for the light of the temple to go down the spinal column to the lower chakra and be expended in sex through drinking alcohol, using drugs, trying to attain a high. This rush of energy is such that there is a *sensation felt* that is an addiction itself

EMPEROR LeAMTHE: People originally were screaming their heads off at seeing the Beatles as this is the rush of energy felt as a sensation which is a false initiation. The hard work is to raise up the light in the body temple. It is an cheap thrills path to destroy the light of the temple. This path of destruction is highlighted in the last days of John Lennon in the way he looked, the long-haired freak. He died early in this path of destruction.

ANDREA SELESTOW: It is not to say that Elvis with the syrupy sympathy to lower the energy to the lower chakras also to be expended in sex is also not what you need to be aware of.

Nancy of Oregon: The point we are making is that these are addictions! To have the rush of energy going to the lower chakras through music that causes you to frequent the bars in lewd behavior to create the salmon lifestyle that you expend foolishly the oil of the wise virgins in wanton sex or wanton drug taking. To have a high. You in so-called freedom are driving the energy in such a way that you also binge on sugar and eat donuts.

STEVEN ECKL: It is a way of life to have this rush of energy going through the chakras and you see why it is that people have their head-sets so loud that they have their ears pierced to get the energy rush. *You are therefore required to get off this addiction of the rushing sensation.* That you are not ending up looking like John Lennon.

ANDREA SELESTOW: It is the prostitution lifestyle. Nostredame has said that Hollywood is comprised of this prostitution lifestyle. You as a Catholic are then reweaving your deathless solar body, that you cannot be destroyed by these evil sounds.

MALACHI: Just as there are demons to white sugar, there are demons to the rock 'n roll music that causes the vessel of his Light to leak that you end up looking like John Lennon. This can however be repaired through a conscious effort in the

use of the power of sound. The crystals on Atlantis or in Noah's flood are said to have created the deluge, however, no matter how you look at it, it was the science of sound that caused the sinking of the continent— crystals or rock musicians.

Nancy of Oregon: You can see why it is that in Mother Mary's appearances throughout the world, she asks you to do the Mother Mary rosary.

ANDREA SELESTOW: The weaning off the addiction to rock music takes time. However you begin with the vigil. You will see that this is not where you want the action in your life to be going, into a path of death and destruction, as modern music and TV would have you go in to.

You will see a great change in the color of your face, the Light in your eyes and face to shine with Light.

MOTHER MARY: You will see that the sound itself, the Word itself, has changed you even physically.

ANDREA SELESTOW: The evil sounds weaken you. You are a weakling.

ABRHAHAM-EMANZIANDIE: You are not so depressed and violent. You do not have to contend with the juvenile delinquency as the sounds you listen to, does determine who you are. You are changed psychologically by the liturgy. And in your mind thoughts it is how you are cognizing. With the Light you invoke, with the light that you raise.
