

**Second Advent Teachings
with Archaeli Mary &
Jesus Christ**

**Pope John
Paul Gospel**

JESUS CHRIST: We will have the Pope to teach upon the history of the West. And as it constitutes the return to IsREAL, it constitutes gospel material.

MOTHER MARY: We might not have time to put this in a final form.

JESUS CHRIST: The US Catholic Church, you may need to put this into a format that can be a part of the Bible, as there is a need to continue teaching here as we have been doing.

Scottish Enlightenment —>

Defiance of the Law

Nancy of Oregon: The Pope will be teaching upon the history of mankind. This will be over a series of “chapters” and he prefers to have the entire book readied before releasing it. It will attempt to describe how it is to return to the Copernicus standard— as the “Isaiah’s return of Israel” to the land chosen by God for IsREAL, the United States.

It will come out in drafts. However you can see that it is not necessary to read the drafts but to read the final versions.

Draft

The central difficulty with Locke's extreme individualism for us has come to be the human described for his possessive quality.

Nancy of Oregon: Possessor → consumer. Possessing money, possessing in particular land at the time of Cromwell and the introduction of the English parliament.

What is IsREAL? Have you defined this for yourself? IsREAL are those who can see what is their identity in God in particular, as, my identity in God by my daily recitation of the Mother Mary Rosary to her Immaculate Heart.

This was something I had done early on. It was something as a Polish child, I venerated the Holy Mother of God. And at that time, I had not even known what was the meaning of her title: *Mother of God*.

Even now, the Mother of God is Mother to me, even now. That as I have ascended, I nonetheless have still this access to have my God I AM Presence to be have questions I might have answered, whether as the outer mind about the soul's wisdom or I might have about humanity as she is an Archai and does see vastly.

IsREAL constitutes an oneness with holy *order*, does it not?

Providence is order. Order is with both a Father and Mother God. It is ever the Presence of a Higher Order that is one's reality.

Let us stop for a moment and try to understand an isolated people and they live quite far apart and when they are gathered together to try to find common resources such as the telephone, that they work together as a community. What John Locke has done is to write down the history as justification for the period of time in which he lived that began of not working together but only for the outpicturing of the use of resources by the individual for his own profit— the advent and landing of the Industrial Revolution in its many manifestations— absent again— without again— notwithstanding the Bible's teachings that God is Providence! in the history of man.

In his enthusiasm to escape medievalism, Locke developed a "conception of the individual as essentially the proprietor.

What Locke has done is to encase man into the pigeonhole with a small aperture to look out and it is that he is a businessman.

Locke developed a “conception of the individual as essentially the proprietor of his own person or capacities, owing nothing to society for them.

Not even be a shop keeper, he is to make money. His making money is the self-interest of Adam Smith that is a self-concern taken out of context to become a virtue-onto-greatness. It is as wheat that has been stripped of the wheat germ and kernel, and you only have the husks to work from as your “life”.

Society becomes a lot of free equal individuals.

There is only one milieu, and it is competition.

Society becomes a lot of free individuals related to each other as proprietors.

He does not see another on the path to the ascension. The ascension is not taught, and anything that is metaphysical, transcendental, Easter resurrection, of lent, of the Christ blood through suffering— all this— for it not to be making money, is to be relegated to “fringe interests and ability” not *core being*.

Religion becomes an “institution” after Adam Smith and John Locke. It is patterned after the profit organization with a board of directors and the Church is labeled the non-profits. And to survive as a Church in the United States requires that you be put into this box for the pigeon to view out of this pigeonhole.

Nancy of Oregon: There is no Vicar of Christ to rule.

POPE JOHN PAUL II: No initiatic path to become the pope.

Locke starts with the medieval position that the earth and its fruits were given originally to mankind in common. What Locke had done was to base his individualistic conception of property rights on natural right and natural law.

Source: *Ideology*, Cabot Lodge, 1979

Nancy of Oregon: This is a lie. To say that all land was given to man in common by God and the jargon words, the ideological spin to put icing-on-the-cake with “natural rights under natural law” is to give the property owners the automatic ascendancy to power and authority in the English legislature over the rest of the people who had previously been under a monarch who had to oversee all the people.

Throughout the Scottish Enlightenment, throughout the Cromwell England period, the balance scale was pushed to the other side, away from the monarchy, on to the introduction of the English Parliament, saying this was for “people’s representation” and it was the “representation of the property owners” — which included land ownership and factories and money, gold and silver ownership—to replace the monarch’s rule over all people under him or her.

King Charles I was killed. He stood the allegiance to God. He said that the blessed and rightful owner of the resources is God. The blessed and rightful director of government, politics and economics is God. King Charles I had to be killed by Cromwell. With his killing, there was the full flourishing of the atheism and agnosticism and of the Scottish Enlightenment which is best understood as the Scottish Hate Jihad.
