

Jesus Christ & El Morya on the Media Serpent

Killabortion

JESUS CHRIST: The issue of killabortion has not been resolved. The media has indeed as the author notes, polarized the public in either pro-choice or pro-life. What is neglected is a true understanding *of life on earth*.

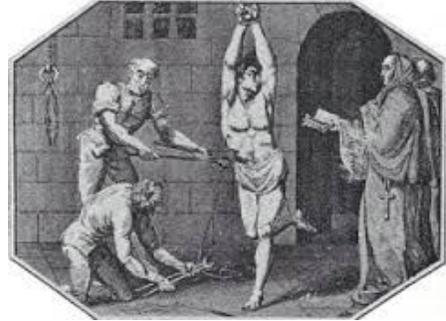

Homeopath: The medicine for infertility is *Lac Humana* which is made from human milk. And how this medicine helps then is the milk of human kindness that the womb is able to produce as in infertility so to speak

When the womb is so violated as in killabortion, women become infertile. This is a known fact.

Killabortion then is castration! It is a way that the womb is made infertile and then when a woman wants to have a child, no child comes forth for the lacerations.

EL MORYA: You must on the instant upon reading this, that you no longer use the word "abortion". You must use the word "castration".

Castration of Woman

Formerly "abortion"

Chapter 6 of Collusion
Bozell & Graham, 2013

Opposing abortion for any reason is a fanatical extreme [in the media.]

ANDREA SELESTOW: What you would try to see is that this issue is not actually understood as it is truly a War on Women as noted by the authors of those who have identified it. However you see what Hilary Clinton said at the asking of her why it was that she pushed through the pro-choice legislation?

She said that Bill Clinton had many sexual liaisons and this would make it easier for the women to get an abortion and not for him to politically get in trouble.

Typist: The issue is a War on Women. It is centering the entire process of life on earth on women as responsible in killabortion and this is false.

The issue is a War on Women however. What Jesus Christ is trying to teach here, is a war on the eagles and life in the Atom.

ANDREA SELESTOW: You see the tens of thousands of women castrated in the Moslem nations, how is this not a War on Women!

Nancy of Oregon: You see the women are burdened with the rapists abounding in the cities without police actually killing them.

Typist: What is not determined in this hour is the criminal offense for killabortion. However it is not as it is now, that a woman is raped and fills out a police report and the case goes absolutely nowhere.

Nancy of Oregon: If the rapists can be treated as castrators, as women are then eventually having to be castrated themselves, it would serve justice.

Typist: The law to me must at the least speak of killabortion as illegal not legal! Something must be strongly said, such as cigarette package warnings, and an actual cigarette tax and not be as it is now, killabortions being funded by insurance companies and by Planned Parenthood and non-profits.

Homeopath: You in killabortion lacerate the womb, you suction out the head and body in pieces and the mother knows all this violence.

You doctors are castrators.

NATHAN the Judge: What the doctors of killabortion are, are fraudulently conducting what is a violence to

the woman. Seeing her child in suction or lopping off the head causes a great trauma, throwing the fetus in nearby garbage cans at Planned Parenthood is violent.

You are frauds! You fraudulently represent yourself as cosmetic surgeons. You do not perform face-lift surgical operations. You lacerate the womb to infertility, the child must be killed through decapitation! These are medical fact.

ANDREA SELESTOW: The misunderstanding is that women are not having a choice about rape, about date rating, incest, about the family rapes, the 15 to 1 shack rapings!

Typist: What Jesus Christ said to me was that life on earth is through this birth womb process, and that ideally the law is that there are no abortions, even in the case of rape but that all babies are given up to adoption.

Nancy of Oregon: What he is saying is that once you pass the line of killing the fetus, that it opens the way for more and more abortions.

Typist: The law in the 2016 US Constitution reads that certain crimes, including the castration and cannibalism, must be killed. Castration means both men and women. You have a genocide if you castrate the military men and civilians in the millions. How is it that the United States can continue with castration or cannibalism? It cannot, and therefore these acts come under *the traitor laws*.

EL MORYA: The issue of killabortion is not well understood intuitively or through the soul when it is put into the context of Islamic doctors going about castrating the female children between the age of 5 and 10.

The so-called War on Women reared its ugly head again when the State of Virginia considered requiring women to see an ultrasound image of their unborn child before an abortion. For early pregnancies, this would require a transvaginal probe, not the traditional abdominal ultrasound.

Faced with a storm of liberal media outrage, Virginia governor Bob McDonnell said he would support only an abdominal ultrasound. The leftist assault compared a vaginal ultrasound to rape, and media outlets obediently repeated that. On February 21, *New York Times* editorial page editor Andrew Rosenthal argued that "since most abortions take place in the first 12 weeks of pregnancy, most women will be forced to submit to trans-vaginal ultrasounds, a coerced penetration that in other circumstances would constitute rape under Virginia state law."

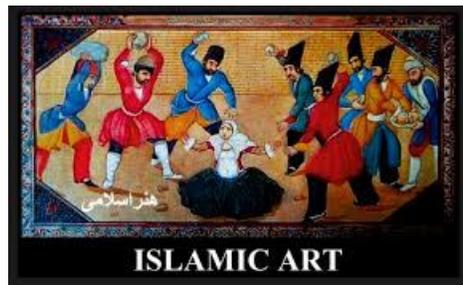

Unsurprisingly, the women on ABC's *The View* came unglued on February 16. Whoopi Goldberg complained, "Women will be required to undergo sonograms, ultrasound when they are about to have an abortion and the other one is that if a heartbeat isn't detected, then they will get a trans-vaginal ultrasound which is basically going into the vagina and very intrusive." To ABC's daytime hosts, a transvaginal sonogram before an abortion is intrusive ... but a transvaginal abortion is not.

JESUS CHRIST: The issue then is: do you want to have a castration or not, and if you are a repeat violator for castrating, then you come under a law in the Atom of the United States that what you are doing is as a traitor.

NATHAN the Judge: What is being said here is that there are no coat-hanger scraping type argument here. What women and men must understand that the War on Women, to have them pay for contraception, to provide for it, and still must bear the trial of an abortion is a reality, and the debate in public is centered again and again on women, not men.

The issue is larger however in that the issue is about the right to life. Life in the United States in particular as the United States is the Chosen Nation. And when killabortion is funded by the government, by insurance companies, what it does is to take such an evil as castration to make this a paid-for criminality that is lost in the insurance records, lost in the Planned Parenthood hallways, funded by non-profits and governments itself.

It is a genocide. It is genocide Clinton-style, it is a genocide.

“Bill Clinton, you just rape the women and put in the laws for them to get an clean hospital table for the killabortion, right?”

Nancy of Oregon: The time is no more. “Bill Clinton, go to hell!”

ANDREA SELESTOW: Your legacy is about to terminate.

STEVEN ECKL: “We are not able to continue this race of the Chosen People with your killabortion policies! Go to hell!”

JESUS CHRIST: The issue is not understood without stepping back and taking this debate of pro-life and pro-choice and putting it into the context of the survival of the Atom.

ANDREA SELESTOW: The Karmic Board has noted that **over 70%** of the women who have killabortions, leave the spiritual path.

This is in addition to the scraping of the womb. How are these any different than the lacerations by Red China of the castrations of the women¹ in this covert war in the handover of the United States to rename the United States to be Hong Kong.

EL MORYA: You must on the instant upon reading this, that you no longer use the word “abortion”. You must use the word “castration”.

Anti-Abortion

Anti-Castration

¹ What Red China thugs do is to use a knife and start cutting in long strokes both the womb and the genitals.
