Throne of England

EL MORYA: I had been Thomas Beckett, the Archbishop of Canterbury. What the Queen of England recognizes is not from the legislature point of view but it is one in which she represents the people, not representing “special interest.”

STEVEN ECKL: What the Queen of England does is that she recognizes the mantle of Christ stands over the Monarch’s position. This is no different than King Charles I had recognized.

Nancy of Oregon: And he was unjustly disposed of by Cromwell to bring about Parliament.

Nostredame is a wonderful geographer, cartographer, plant man, species and culture investigator and scientist. He will answer your Goodness and Common Good questions.

NANCY of Oregon: He is an advisor to kings and queens. He knows the House of Bourbon and the House of Capet.

Mathzedes: He is known for his exemplary work in world peace.

GOD HELIOS: His work is stupendous and practical in nature. Superb mathematician and advisor on land use and land formations.

JESUS CHRIST: What is said here is that the kings and queens can hold the accountability as their studies are far and wide, whereas the special interest of the Legislature is not so.

J.P. Morgan: The industrial-military complex that General Eisenhower warned of is such as this, that for the legislature buying constantly.

J. Paul Getty: That the military is not focused on *raison de'tre*.

JESUS CHRIST: The legislature brought about the special interest groups. The representation is not found of the People.

George Washington: You saw how the Parliament Corn Laws were to favor special interests, the landowners.

JESUS CHRIST: It exacerbated the Irish famine, as the landowners had the legislature under their command.

EL MORYA: There are groups in the United States that are specific to the golden ages. Of the Pacific fire ring which includes both Alaska and Hawaii, these are the reincarnated Lemurians. Silicon Valley and the computer industry is the reincarnation of the ancient science on Lemuria. On the East Coast, including Bermuda, Bahamas, are the reincarnation of the Atlanteans of that Golden Age.

ANDREA SELESTOW: Often we find that those who are living in the United States are already living in a Golden Age. Thus such a one might say that they find the teaching on homeopathy is most interesting, as this is a type of Golden Age medicine.

JESUS CHRIST: And if this be so, it is that in ones Christ bearer momentum that one finds that this could help many people.

EL MORYA: What Phylos the Thibetan did was to write of what the United States would need to do to bring back the ancient science of Atlantis. He spoke extensively on the science then. Transportation was free, and inventions today that was already present then were such as the radio. What is not here in this age is the Unfed Flame, the flame that burns without fuel to heal and cremate bodies, and to energize the people.

JESUS CHRIST: Thus my beloved Queen of England has been a devotee of Christ and this does carry through the Throne of England.

JESUS CHRIST: The Queen of England recognizes that when you have this Christ in the Monarch to make the decisions for the defense of the people of the British Isle that the land is a safer place. It is a truer place.

JESUS CHRIST: In this hour, do accord here the mantle that she is a Christ bearer in her role that can lead the British Isles.

NATHAN the Judge: It is similar to my being a judge. She is the monarch and Queen. And therefore you accord her that respect as she bears that mantle as monarch.

JESUS CHRIST: It can still be workable to have a monarch who would carry this accountability. In this day of modern communication, this is possible.
