

# United States Crime Clean-up

## National Standard

### Computer Chip

**MOTHER MARY:** At this time of the technology, the police departments throughout the United States would move to the next level of law enforcement and the protection of the children, women and men.

**Brennus:** What you have are computer chips that can be put inside of the bone marrow and this can be done in an outpatient or clinic environment handcuffing a person. From this "dog tag" then and from the satellite maps, it is possible to see from police reports of burglaries who went inside a room to rape a woman and rob her.

**Mathzedes:** Normally the attempted entry is more than once before they are successful.

**MOSES:** This would constitute the *witness* in a criminal case. There is no further need to use the court system's depositions and questioning except to give the verdict.

**J. Edgar Hoover:** Or this determination and match-up of a witness to crime, can be done at the police department.

**MOTHER MARY:** How this is done then is for the women to go by the chapter on stalking by the FBI in the book *Obsession* that is an unmistakable level in identifying these. These stalkers so identified would then have a chip put into their bone marrow. Had this done in the case with Ted Bundy, had it been done with the Oklahoma City bomber, in those who come back to the county building as trespassers, the tragedies would not have happened.

Primarily see that this is done at the stalking level, the harassment identification level, the privacy intrusion level.

**MOSES:** Part of the reason why this must be done is that we have too many illegal aliens here. The marijuana-deathdrug-or-opium-den culture is entrenched of a no-return.

**MOTHER MARY:** The child abuse of China does not end even with three generations later. The child abuse of Mexican children do not end ever including homosexuality.

**NOSTREDAME:** They worship in the temples, and they have the 10,000 temples. That this is their culture.

**MOTHER MARY:** And those children who have the child abuse can report this to the police and from there, you will see that these also rape women and other children, and with today's technology it is possible to see the exact time of a photograph of where this chip is to identify another and another raping of the child.

**MOSES:** As I am a practical military law general, you would add that should any of these with the chips be found in a pornography store, that they will automatically have their driver's license revoked for the rest of their life.

**MOTHER MARY:** *There is no other way!* These elements are out of control in the United States and a "simple Christian faith" is not enough to curb these dangerous conditions.

I do not see any other way.

**MOSES:** Neither do I. You have the technology. Use it.

We also need to dog-tag the thieves. For example, they are part of organized crime in prostitution, gambling, extortion, killings, and they are in crime gangs. They then would congregate on the weekends to determine the next hit. And from the congregation of the dog-tags, this can be seen and the entire gang of thieves can be killed.
