

US National Standard in Culture

Research & New US Constitution Inserts

Nancy of Oregon: Where *Institutions* are in alignment with the betterment of mankind as in the Great Britain colonization, with the Will of God as *raison d'être*, it is a giving forth of the greatest freedom. The culture of Europe of the monarchy was one that saw to the betterment of mankind, and thus, science and health worked under the monarchy as the institutions.

NATHAN the Judge: Under the current United States Constitution, the name of “research along with the King” was perhaps recognized in the past of the Great Britain Imperialism, as Sir Albert Schweitzer under a Lord, and the aim of research and science was to work under the auspices of the Atom—seeing to the betterment of mankind.

NOSTREDAME: What you have at present is an abomination in the United States. Research is for the purpose often of the corporations and individuals. It is not for the monarchy. *Here, for Imperialism* of the higher serving the lower economic cause.

Thus, the United States Kings of the various functions of the Military Law Council are to have a strong research staff that has its *raison d'être* the dedication to truth and valor, the dedication to the highest standard for the Atom. It is not “how to circumvent taxes by going to Cayman Islands” as you now have research doing.

The formation of United States administration department is first by King, and then by function such as *equal weights and measurements*, and all this is based on the United States Constitution. However historically what is clearly missing is the research staff that must accompany the Kings of the United States.

NATHAN the Judge: Thus in the colonization of South Africa by England, you will recall the very research teams that went there. They went into the mines to see how they would harvest the diamonds and minerals. And this, they would report back to the Administrator of the East India or Colonization Company who is above and beyond first responsible to the Ten Commandments or Christ as you have in the present United States organization chart, that all officials of government report to Moses or the Ten Commandments Religion.

NOSTREDAME: God then is what the research staff report to along with the monarch in England, the King or Queen.

Bill Paley: You see this in the work of Albert Schweitzer, do you not! You see this in a person such as Eduard Shevardnadze, the leader who brokered the fall of the Berlin Wall and the reduction of arms in the Soviet-US Cold War.

NOSTREDAME: These are beyond the borders. They are not of a political party as you have the old United States Constitution. They are as the selfless and patriotic position holders if you will. They have little to do with working for legislatures and K Street which also does Research. And in Shevardnadze's case, he was ousted as Georgia's leader by design of political envy and jealousy of the Soviet politburo.

NANCY OF OREGON: An example of how the Researcher would work with the King is that of the IRS. The IRS say, "People who are illegal aliens do not pay taxes. We know from the 1099's that we send out. But what can we do about it?"

NATHAN the Judge: And the IRS Research would find ways to collect those taxes to deport the illegal aliens. To check their illegal status at the INS and furthermore have the INS under research.

NOSTREDAME: It would not be "bureaucracy as usual out of Washington DC"!

Nancy of Oregon: See how the Amish sued the State not to have their children go to public schools past 8th grade. And this case went before the Supreme Court.

NATHAN the Judge: The Supreme Court always seem to exert their will and power over the People by this very method of simply finding and choosing a Bill of Rights Amendment and apply it to make the case go however they are told to from the President.

As in the case with killaboriton, they focused on choice. Freedom of choice.

In the Amish case, they would have gone to their pocket dictionary and pull out say, freedom of speech, that they would then apply to the Amish case that the children no longer needed to go to public schools past eighth grade.

Nancy of Oregon: But the Research person under the King who saw this Amish case, would have said, "This is clearly a case where the Amish are saying: We do not want our children to have the sex education of the public schools, we do not want date rape. No not our children!

NOSTREDAME: And the Research people would then have given this knowledge to the King and they would have decided to speak to the Amish themselves and to research objectively in social intercourse to see how is it that this greatly righteous people and honorable people live, and to furthermore see to this being the standard for all the public schools in the United States.

MOTHER MARY: In this case of the Supreme Court to have heard the Amish case, was to have a pure manipulation of the freedom in education.

NOSTREDAME: And it is again "business as usual out of Washington D.C." where there is not representation! There is not the hearing of the voice of the People.

NATHAN the Judge: The Washington DC politicians know this! They are ones to determine what the Supreme Court will do to not upset the balance of power that money continue to pour into the coffers of those who support public education in this foul manner where the children are not educated, the scores are low, and not able to compete as functional illiterates, where they're not taught moral education and where they are not taught the lessons of history.

MOTHER MARY: It is a Bill of Rights that we including to the US Constitution. With the Bill of Rights to include a study of history and moral education, the community centers would be for the apprentices to learn what is this community building.

NOSTREDAME: We will have the remaining ones listed.

- **Eagle right to moral education, Eagle right to historical education.**
- **Eagle right to marriage of Canon Law.**
- **Eagle right to safe passage in life, liberty and pursuit of happiness on National Standard of Mother Eagle in Ten Commandments. Eagle right for National Standard of a work ethic and of Galatians 5:16-21. Eagle right to National Standard against terrorism to Atom. Eagle right to work.**
- **Eagle right to police killing of crime. Eagle right to military research and rectitude on culture and social law to be in meeting of National Standard.**
- **Eagle right to remove people of cancer in Atom.**

MOTHER MARY: You can see the joy and great happiness here of the people in finally being organized by the British.

MOTHER MARY: What will happen going forward in this effort to re-establish the United States in safety is a reorganization of the economic pyramid. This includes housing where the naturalized citizens have a right to housing

GOD HELIOS: We would now include the other laws that you see that we are not tolerating one iota that which is the heinous behavior of the colonization of Bush, Clinton, Ron Paul and those who worked under the former United States Constitution without representation, without moral rectitude. And so the people are continually to be endangered, they are not protected at the borders either in currency, jobs or even the quartering in their homes in the South by Mexican insurgents.

NOSTREDAME: This is a necessary insert that

“The one who arises as Napoleon must be killed. Their modus operandi will be cantankerous inferiority complex to manipulate position holders in their power coveting. The Eleventh Hour laws in court-marshal is without plea for consensus of Atom danger.”

“Footnote: In the castrations of the New York police where the mayor sat in the rear while the President castrated them individually and by summons be killed. In the castrations of the 120 military of the President in front of the military generals, they not. However for such manipulation, that the Napoleonic results based on such physical damage and moral debility affects upon all, the Napoleon would be court-marshal.

Furthermore—

“Law implemented by either legislature or Napoleon arising will go before objective unbiased scrutiny of Military Law Council court-marshal. That the defense posture of the United States shall not be breached: illegal aliens, black market actions and practices, illegal culture in morals will not be introduced to destroy the nation.”

“Footnote: Examples: cannibalism, castrations, mutilations of killings, gangland slayings.”

“This then circumvents the arising of Napoleon into Military Law Council by manipulating himself to high position as leader of military junta to violate on command, Eagle rights and the security of the United States. Furthermore any laws placed by Napoleon would be overturned by court-marshal, laws placed by Napoleon for usurp of power into Napoleonic and antichrist control of the United States.”
