

US National Standard in Culture

Additions to the US Constitution

NOSTREDAME: In meeting after meeting for myself and Mother Mary and Archangel Raphael and the typist. The Seasoned Colonialists have also been present and the sheriff of Jarvis Raymond.

In finding synonyms for the word "Bill of Rights", along with the word "contingency to be in the Atom", we came up with words such as accouplement, confluence, concatenation, concurrence, compact, equipage, propriety, redress, conditional within certain limits, provisional, substantive.

It is *not* "justifiable in accordance with duty" nor "rights and responsibilities".

Nancy of Oregon: This is not a right. →

MOTHER MARY: This is from the illegal aliens from Mexico in the millions in the United States. The right has been subversive in the United States, and they use freedom of speech and assembly as their right and it is but subversive use of anarchy. Freedom of speech and assembly is not a “right” but a contingency.

NOSTREDAME: We then having considered the following additions to the US Constitution.

1. **Military Law Council Courts have power in the higher must go higher and the lower must go lower in colonization.**
2. **Witness reporting based on tone not just words.**
3. **Organized crime and organized crime systems kill.**
4. **Military Law Council or King-Queen practices not fornication or torture.**
5. **In colonization and its institutions of the States under Military Law Council, the higher must go higher the lower must go lower.**

It is therefore, that we would put what had been termed "Rights" under colonization now.

There will be of colonization

- **Allegiance and loyalty to Mother of Eagles and not to Communism or Legislative law.**
- Moral education, historical lesson education. Higher education goal to make better citizens.
- In colonization, the marriage of Canon Law.
- Safe passage in life, liberty and pursuit of happiness on National Standard of Mother Eagle in Ten Commandments and Galatians 5:16-21. Furthermore National Religion is Christ Standard.
- National Standard of work and work ethic.
- National Standard against terrorism to Atom.
- Organized crime and criminal systems kill.
- Military research and rectitude on culture and social law to be in meeting of National Standard.

MOTHER MARY: You can see that this will alleviate much of the fear and concern over the previous European, Asia or African concerns over a tyrannical government. As given here, the lower must go lower, the higher must go higher.

ARCHANGEL RAPHAEL: Where you have a tyrannical government, the higher must go higher, the lower must go lower.

Mathzedes: The simple example is cannibalism. Red China practices cannibalism. How is it that the United States be renamed to Hong Kong, that it would become a colony to Red China who practices cannibalism?

NOSTREDAME: This was shown in the China famine induced by Mao Tse Tung. This was shown in the thousands of US military men who were forced to kill someone in jihad by NATO German commanders. The dead Americans were forced to eat the meat of US soldiers! They were cut up and cooked and served in cannibalism in these last few decades!

NATHAN the Judge: Then there is what Germany, Red China, Canada and Mexico sought to induce a famine in the United States by poisoning the Monsanto seeds in 2016-17.
