

## Special Bulletin

**JARVIS RAYMOND:** The Sheik of Dubai was just nearly killed. There was an attempted murder. The Sheik was one who went to school with Alex and the former Shah of Iran before the Ottoman empire from inspection of the Karmic Board records. What was a meeting yesterday was on the inner and a very long meeting.

**COMMENTARY:** The former Shah was on his way to kill the Sheik.

**NATHAN the Judge:** We would like to clarify who the Sheik is. He had a reputation from the Cabal meetings, and yet, he himself only knew himself to be a businessman. He said that had he known that Clinton would lead him into this bad venture of Dubai, he would not have built Dubai.

What he at the end of the meeting did was to meet with Bill Gates on the inner for hours. And so they commiserated, cried and cried, over what had happened to each of them, and there was a great healing for the two of them.

Before that time, God Helios did explain that the Sheik was making backdirect for Dubai and that it is far better that he not make any more backdirect.

**GOD HELIOS:** You are much better off to suddenly turn into downsizing and streamlining your life. Dubai was a place for avoiding paying taxes, for hiding black market money, the same as you would think of Cayman Islands.

And you yourself said that this cannot last long, I am a businessman, and people do have to pay taxes. Your honesty throughout this meeting would have shown you that you are best to leave Dubai behind and go on your way to live in honesty as you have integrity. The backdirect for Dubai is not something that is worthy to continually into the centuries to pay off for a poor business idea and design.

Illegal aliens protesting Trump the businessman.

**COMMENTARY:** In this meeting, the Sheik asked Mother Mary, "Why is it that I have such a fear of dying?" as the Shah was in the meeting that he said this.

Mother Mary explained that normally there is not a disclosure of past lives, yet this may be a time to do so.

She said that he was crushed by a camel.

And that it is something the Iranians do, crush people. The driver of the camel who crushed the Sheik was the former Shah of Iran.

The Sheik then offered the history that the Shah had crushed 5 people with a backhoe in Dubai. These were to punish indolent workers. The law was to kill him, the Sheik did not consider this. The Shah said to the Sheik, this is under Iranian law. But he said separately, "It was fun to see what would happen," in this crushing of the 5 people.

Immediately, as this meeting is on the inner, Mother Mary asked, "What is the law in Dubai? Is it Islamic where these can do this?" And the Sheik said it was "English law in Dubai" as he studied law at Oxford.

**Nancy of Oregon:** Suddenly on the outer then, the physical, the former Shah of Iran was crushed by a camel.

**NATHAN the Judge:** It is a great backdirect for having done this to the Sheik and also for the record of the 5 killings in Dubai.

**Bill Gates:** That's me, with pie in my face.

**Nancy of Oregon:** Here is another target to be killed by Bill Clinton.

**NATHAN the Judge:** The evil is such that there was hardly anyone who was not horrified by these people.

**Fillet Mignon:** At another time, what Bill Clinton did was to ask the Sheik, “What shall we do with this one who did not send out the phone message (for the US to surrender to Red China)?” And the Sheik was not even given a chance to know that this person was Alex. The

Sheik said, “If I only had a chance to speak to Alex! I would have totally agreed with him this is just spam!” Alex was killed.

**Alex:** You see, they play a fast ball game that before you even had a chance to make a sound business decision, they have already stolen your computers—private property—thinking they will steal all your wealth eventually—and on top of that, ripped you off of your friends-staff-workers. It is as horrible as it can be, for any century, to be living this my friend as you have. So much of this will be clearer once you make a clean break from these creepy people.

**Mathzedes:** This is what has been called “Satan on steroids.”

**Nancy of Oregon:** Bill Gates at the end of his life had downsized his life. He no longer took care of a mansion, he was traveling months and months looking out at the countryside, able to relax, and improve his eyesight.

**MOTHER MARY:** There will still be a time to build a wall of anger for the protection of your soul and that you do use the whacking of the towel exercise for the 90 days.

**Bill Gates:** I learned a great deal from the Sheik, and he hopefully a great deal from me hopefully, as we are both rulers and businessmen in this century.

And I said to the Sheik, “You see, you do not need to build a ski lift and worry if it will collapse, you can go any time to a ski resort, and rent the shoes, the skis, the tram ride, you are free as a bird to be able to retire. It is a burden for us folks who have been-there-done-that to know the burdens for having so much money.

**COMMENTARY:** Bill Gates also explained that though he was a very rich man, that what he valued the most was his special friendship with the one who created Microsoft with him.

**Bill Gates:** It is these friendships that say volumes of where you are going somewhere that matters now.

Soon hopefully enough we will meet again Sheik.

Goodbye for now!

**Nancy of Oregon:** What Alex did for the Sheik was always— *a day late, a dollar short*. No one knew who he was, that he had already been world conqueror as Brennus. The only way you conquer the world is through giving something to relieve a people’s suffering.

**Alex:** This was not Clinton’s idea. His idea was the use of force in nuclear bombs, in force by stealing through extortion computers, your computers, to control any corporation or organization whenever, however he deemed to his selfish design without end. And it is not the way, as people do not desire to live under tyranny long, under Slave-driver long.

It is said, I was *a day late, a dollar short*, that no one knew of his evil designs upon everyone he met. Everyone is to become a slave to him. He would lie through his teeth to make it so.

And the idea that he would go to syringe you, is this making docile and indolent when you yourself have yet to live a full life. Even I was not able to understand this, it was simply too late, I was already dead. I could not tell you this much even then.

**Nancy of Oregon:** What Alex means is that he is eternally grateful to you for having called him an “idiot”, as that did save his life. But what is only known now is that poor idiot needed a 12-step program.

**Alex:** I needed an Alcoholics Anonymous program, one in which that “idiot” was in need of a 12-step program. Thanks again, it was you who had saved my life. I found safe-haven in Dubai. Thank you.

**Nancy of Oregon:** Alex met the one in computers who lived in Germany, and even though he has since gone to the second death, he was a member of my Church. So Alex did go further in belief systems. Just think how I felt, when asked, “Do you believe Clinton’s story?” And you do, and then we have to recant what we said when you find out he was syringing people with the same fervor as she with the Korean deprogramming. what is an idiot in oneself.

**Alex:** What you did for me was to give me opportunity, a chance to study myself. I would never had had it without your guidance and sheltering me here. I went to Belgium, and that was where I had lived as Brennus, and although this is only clear in retrospect, I had gone back to who I had been before in time before these many tyrants around me.

**MOTHER MARY:** You would not recognize Alex now.

**Fillet Mignon:** At the end of the day, you do come to realize that Alex was as an “alcoholic behavior”. He was a broken doll. The walk-in so many was Iman.

**Mathzedes:** Iman would simply shake a person’s hand and it was enough to be as a lecherous person the rest of his life. It was correct that you got rid of these straightway. Clinton knew this about Iman, and did send various people to meet Iman to have him be the walk-in.

**Alex:** Even the German in computers had Iman as the walk-in. You will remember the foreman that also had the Iman demon.

**NOSTREDAME:** What you see about many of these people is the evil Iman who is the walk-in!

**NATHAN the Judge:** You do not know this. I had let Hitler go to Argentina at the Nuremberg Trials. And no one, absolutely no one, could have imagined that the Nazi generals would return in order to exact KD among American military to revenge them for their own embarrassment at the Nuremberg trials.

**Fillet Mignon:** Not all decisions are business decisions. And when you relegate the decision-making to business only, you will find that you are the one most injured. When you take the high road of making moral decisions, you will find that you do not compromise with "this is a business decision."

**ARCHANGEL RAPHAEL:** Judas would sell out Jesus for 30 pieces of silver in order to build a new commune as he thought Jesus would just figure out how to get out from the prison guards who arrested him. Judas thought Jesus would escape the bonds, come back, and build the community from his business decision

that gained him 30 pieces of silver. And this became a stumbling block to him as Judas went to the second death, to primarily make business-decisions only and not to go within the heart well to find what is the end result of the moral direction that the business decision was headed in.

**EL MORYA:** Yes, you may be always successful as a businessman, always, always making the right business decisions, but will that decision betray you as in the example of Judas the businessman?

**GOD HELIOS:** Business decisions are not enough, or you will find a great backdirect returning to you to pay off.

It is not paid off by just surrounding yourself with wealth either as in the case with the princes and kings. You still have to face the backdirect or karma.

**MOTHER MARY:** You can see from our writings on the building of the community, that we are going higher. You are one that we would say that this applies that—

**"The higher must go higher, the lower must go lower."**
