University Defense Education

Why is there a need for university “defense” education?

Nancy of Oregon: Although Moses did not write about Chief Demon whom Phyllos wrote about in *An Earth Dweller Returns*. This “chief demon” has been able to convince those in heaven that you need evil so man does not become lazy. And his concept of evil is to have ones such as Bill Clinton to reincarnate over and over again to torment the sons and daughters of God lifetime after lifetime.

This is the reality.

The Bible begins at Genesis. It was written by Moses. The Big Bang theory or any other theory is not so cogent as a theory of evolution. The Fall of Man is what to look for as the time we are in. We need a cogent theory for defense of moral education. And to adopt the other theories of creation story does not bode well for a sound defense making.

ANDREA SELESTOW: No matter how you jumble the history and words, it comes out to this configuration. And thus, you see all this witchcraft, séance work, demons and configuration of forces is what you have before you.

The Sons of Jared have *not* been able to rise up to the mountain of God since their fall on Atlantis. These are the

rock musicians. They are no different now than back on Atlantis with these long-haired ones with their long faces and cynical outlooks.

MOSES: Who do not choose the lifestyle of *Choose Life Not Death and Destruction*.

NATHAN the Judge: The Atlanteans since the Flood of Noah have not truly learned their lesson. We then have another flood upcoming in an hundred year, that is again, no real recovery of the lessons learned to have been garnered since the Fall of Man in Eden.

What however has come about is that Moses came out with the Ten Commandments. Think then that this is real history of evolution, not as you think of man arising from apes.

ANDREA SELESTOW: In this configuration of forces, Moses describes in the bible, chapter after chapter, how to get out of this Genesis cycle although it is a long one, all the way back to the Flood of Noah some 54,000 years ago. All the way back to Cain slaying Abel in the working of fascism.

To date, genetic engineering is not under control either. On Atlantis, freak creations came out of the test tube on Atlantis to produce half-animal and half-human creations to do the housework and farming. No, none of this genetic engineering has changed here in 2017 from 54,000 years ago.

This is recorded by Moses. The Bible helps give us the history and the way out. And the bible furthermore ends with the *Revelation* of Jesus Christ to say what is the end of the Four Horsemen and the dragons who war against the Woman Clothed With the Sun.

Nancy of Oregon: The Four Horsemen describes World War I and II. And then you have the pale horse of famine.

You can see that until it is restored than man will live in heaven, these are the environs you live in, requiring the university defense education.
