## University Defense Education

**NOSTREDAME:** In speaking about the defense education of the nation, what you can rightly assume is that without oversight by the People, there are the machinations of the powers-that-be—to bring about a watershed for the wealthy and powerful in a “fascist” control of the economy in all areas including education.

If the “governed” were to glance at the 2001-2008 “Funds for State Formula-allocated and Student Aid Programs — US Department of Education Funding” a, they would visit the kingdom of irresponsible, special interest appropriations. Including student loans and “family education loans” (whatever that is), the education budget increased from \$73,929,485,607 in 2001, to

\$123,379,426,186 (est.) in 2008. Those are in *billions*! In 2008, it would cost \$410 in taxes for each and every one of us, including newborn infants! A mere 70% increase and no improvements in sight! How much longer must we tolerate this reckless behavior?
