Hallucinate Drugs

ANDREA SELESTOW: For the “morality structure breakdown” you require an image. It is shown in this way as analogy.

Here you have the chart of the self. You have the YHVH at the top. You have the Christ Self above the physical body. The soul resides in both the seat of the soul and solar plexus chakras.

A black plate here separates the higher intelligences of the higher selves from the lower body. This is then a person cut off from his heart intelligence, Christ intelligence, I AM Presence intelligence and the soul intelligence given the technology of such a plate in theory.

Nancy of Oregon: The type of sympathy that might be seen in the drug addict, sympathy for sadism, narcissism and necrophilia. The concerns are of the base chakra, selfishness,

the one does not work with the Threefold Flame, but concerns are food and sex.

Narcissism sympathy for self Deathhead in Iraq.

ANDREA SELESTOW: The language is stultified. They speak through hand gestures. The hand gesture is "This is A-okay" and it is inappropriate!"

JARVIS RAYMOND: This is a dementia. That anyone would do the A-okay hand gesture for this horror.

ANDREA SELESTOW: You ask if smoking marijuana-deathdrug causes one to go out and kill. It gives one the bravado to kill certainly however they are termed antichrist.

Nostradamus taught that the Third Antichrist learns by studying Hitler, Voltaire and Leibniz. Here is a picture out of Voltaire's *Candide*. It is a world devoid of morals.

NOSTREDAME: The Third Antichrist had need to have no moral feelings whatsoever to go forward and bomb mercilessly nations. Thus this was the paradigm that was not only portrayed by Voltaire and Leibniz but also Engels.

ANDREA SELESTOW: Marquis de Sade. tying up naked women to bedposts every Easter and whipping them.

Candide was completely mystified and could not make out how he was a hero. One fine spring day he thought he would take a walk, going straight ahead, in the belief .

NOSTREDAME: Pornography has this horrible manipulation of women so photographed that they are trapped by masturbation energy that is a [noxious] clout toward them.

MOSES: The whipping of the mother by 9-year olds is such an example of hash.

MOSES: I would add killing and sadism to that "high."

"All hallucinate drugs are poison."
