Hallucinate Drugs

JARVIS RAYMOND: Throughout history this photo of the blacking out of the conscience, heart and soul has this been tried.

This is no more glaringly so than with Red China. The Jesuits and missionary priests traveled to Cathy to bring Christianity on the silk trail. They had choice. They chose. They could see the Word, they choose not to adopt Christianity for the reason that they would have to give up their slavery conditions of the people. We have said that the teens are raped 5 to 1 and this is 100% child abuse in Red China. It does not change year-to-year, neither century to century.

MOSES: It is not possible for slavery that through technology of dardhvator, or through the Opium Wars and the marijuana-deathdrug referendum in the State, that this backdirect does not end up upon these to be going to their final death.

JARVIS RAYMOND: It is as said that energy is not created nor destroyed—of that which is eternal. And with child abuse, one would think this would enslave the girls and this is not often what happens. Instead through a co-dependency program, these women often become quite pure as the spiritual life is in seeing the emptiness of the human equation.

MOTHER MARY: Nevertheless their life is made unto *eternal life*, and the rapists and slave owner, made unto a life of eternal damnation.

Mathzedes: The Lords of Karma have met with some of these women who were killed in Chinatown when they did not fit into the scheme of the aristocrats-of-kill.¹ It is as if the Chinese boys are trained in the knife, the girls are forced to accept and to obey family tradition to be raped by the male gangs.

SAINT DIANE: Family tradition does not make it right.

GOD HELIOS: Rather it is the God Father and God Mother that one seeks in righteousness.

Nancy of Oregon: Some of these in addition to the co-dependency counseling are receiving the knowledge of their teen rapings directed by the aristocrats as to why they would not have fared well adhering to the Chinatown program in these opium-den-like teen prostitution conditions.

Mathzedes: They are not rich, they are middle class.

¹ Ones who kill people in the 700's to keep their aristocrat position socially.

NATHAN the Judge: It is their delusion that they are as the premier in China said, "Being rich is glorious."

MOSES: This is not an Eagle value. The "middle class" is of the Judeo-Christian work ethic value.

ANDREA SELESTOW: I hold the office of the Goddess of Liberty for the Karmic Board. Might I say that it is only in the United States that you are able to say, "no" to these conditions of ill-will and leading you down a horrific road for some 3 or 4 decades living in the United States.

You do live in a free country. And what largess of heart you have learned through the Lutheran way, or what Good Samaritan ways you have thought are rather, not these so dictated by a fascist government, that is, they have laws governing helping the indigent.

Where you might see these evil designs such as we have described as the marijuana-deathdrug tortures as in My Lai or the Iraq prisons, you would act in righteous indignation. This would be in the 9-year olds whipping the mother. This would be the hearing of women scream that it is wrong at the Planned Parenthood facilities who scream at the killabortion, "Why did you lead me to kill my baby!" The nation of the United States makes this possible toward having the freedom of conscience.

BURNJEH, Physician: You yourself can walk away from the "Can you help me?" of Ted Bundy's who then throws off his plaster cast, rapes and kills women en masse. However you see that being in the United States means more. You see how difficult it is for the Christian child who's father was smoking marijuana-deathdrug for 9 months to become a child abuser and child killer. And he so asks, "How is it a free country this way? That you *choose* to smoke marijuana-

deathdrug? So you can go out and kill children in the schoolyard?"

And the answer is partly in the University. It is where you would learn a defense of the nation no different than the French, that you would learn not to put to chance that the government would be directing these affairs but that you do study the horrors of evil at the University.

Marquis Fontanes: It is one of the requirements at the University, that you do learn the horrors of evil.

MOSES: I would add killing and sadism to that "high."

"All hallucinate drugs are poison."
