Hallucinate Drugs

MOTHER MARY: Cocaine as a drug is violent. Marijuana-deathdrug is violent.

NATHAN the Judge: What you say back is that, "When you are in this state of the opium drughead, you are superman. You are Superman on steroids."

This is a real life example of a cocaine related crime. A policeman's head was cut off and his arms were cut off. His penis was stuffed in his mouth. Would you not agree with me that this is *Satan on steroids*? And if it is not a policeman, how about you? It matters not, once they do one killing, they do as many as they want.

Nancy of Oregon: Heroin is not the same. Do not confuse cocaine with heroin. It is also the death of the soul, and heroin cannot be tolerated, but cocaine is violent. Heroin is violent in that it is stealing for the next fix.

MOSES: They are all violent drugs, however marijuana-deathdrug and cocaine are violent towards others. Heroin is violent towards oneself more. However, you are not looking for *what drug*. You are looking for jihad, you as law abiding and lawmaker are to use the word jihad.

MOTHER MARY: You are to look for jihad.

MOSES: If it is easier, you just say, "This is cocaine. This is marijuana."

MOSES: I would add killing and sadism to that "high."

"All hallucinate drugs are poison."

Mother Mary
