## Hallucinate Drugs

### MARIJUANA STOCK MILLIONAIRES

#### **The End of a Prohibition. Marijuana's Prohibition.**

**JARVIS RAYMOND:** The United States is as Judge Wendell Holmes said, "I pay taxes. *I am buying civilization.*" This is the goal of the United States—to bring the most advanced civilization, not make marijuana millionaires.

**J.P. Morgan:** It is the object lesson for the States to see this, that the business of selling marijuana and drugs is always the black market choice to punish the residents that includes the very deathhead symptoms we have described to you.

**JARVIS RAYMOND:** Is this the nation you want?  
Irresponsible deathheads?

**ANDREA SELESTOW:** Moses said that the atheist you do not want in making decisions as they will have you killed, especially in a military condition.

They do not believe even what you say in honesty and truth. They only believe what they want to believe.

**MOSES:** Militarily, they are dangerous to the other troops and the military must have religion established that there is a higher power.

**JARVIS RAYMOND:** Is this the nation you want?  
Irresponsible deathheads?

**NOSTREDAME:** Going forward there are no legislatures either at the state or national level. Their focus is on special interest.

**J. Paul Getty:** Business interest is secondary to civilization interest that this nation might endure.

**Q: Is there any role for the politicians?**

**EL MORYA:** I myself have been a lawyer. Traditionally the role of the politician has been a scribe or a cleric. And this is an abomination to have the city and State positions and legislatures filled with wordy and useless people.

**MOSES:** I would add killing and sadism to that "high."  
**"All hallucinate drugs are poison."**

**Mother Mary**
