## Hallucinate Drugs

**JARVIS RAYMOND:** What was not taken into consideration was the property values that they would be lowered for the marijuana-deathdrug referendums. The laws need to be reversed on this sham.

**MOSES:** And if they are found as a street squatter nuisance, they come under traitor laws and go to the electric chair. It is without sympathy, it is straightforward such as what was seen in overdosing in San Francisco's Haight Ashbury district. Do not forget that this is the same behavior of those under hash, to enact great torture of others in community by their drop-out rebellious attitudes, their lowering of property values for their hash demons.

**JARVIS RAYMOND:** They "believe" that the drug is harmless and therefore their belief makes it so, and this lying must be challenged.

**MOSES:** I would add killing and sadism to that "high."

**"All hallucinate drugs are poison."**

**Mother Mary**
