

# US Constitution Preamble

**NOSTREDAME:** The preamble to the new US Constitution is for the benefit of understanding more the Teachings on Adam and Eve that you might accord Moses.

**NOSTREDAME:** We are not done with a final but this can be used for now.

## **Preamble to US Constitution—**

The history of the US has been the corruption of greed in business in laissez faire. The Federal Reserve is taking power and money directly from the US treasury to loan out money for private banks, stealing money. The deficit spending by legislatures illegal outside common law courts in justice continuing the method of Franklin Roosevelt's in Congress and President to spend lavishly on capital projects, lavishing money in military gifts to the barbarians, the giving away of Panama readied for an enemy takeover, giving away Eastern Europe to bondage behind the iron curtain after World War II by the President. The government is not protecting the land to have millions of illegal aliens to squat in owned US homes and businesses. The President rationalizes by Thomas Jefferson tic-toc reason. Economic problems for future generations such as the Medicare and Medicaid debacle where a back pain is paid at over a thousand dollars replete with MRI scans and surgery. This is corruption, also in the massive military spending where military men are employed to watch the stock of heavy military machinery, corrupt in massive expenditures in rebuilding engineering contracts in war--such spending to pocket money by the President himself. The State and Defense Department putting soldiers under NATO generals who were reincarnated Nazis seeking a revenge for their embarrassing Nuremberg trials that soldiers were Korean deprogrammed, their brains syringed to deaden to control soldiers, foreign prostitutes assigned to corrupt military, including hard drugs by NATO and President. The President himself arranges the transference of the nation to foreign governments by having open immigration or allowing for illegal aliens in the millions, while he pockets ongoing social security payments and pensions of seniors he organized Red China to have killed on US soil. The Cabal has likewise joined forces to utterly destroy the nation and to have it be slave working for several nations already encamped in Washington DC to control government and military in the thousands. This government must be hewn down as a grown tree and a return to the roots of Christ lineage must be established now. The George Washington Constitution was replaced by the Thomas Jefferson atheist one.

Washington himself said that he would not have fought the American Revolution had he known that the United States would be given over to the landlords pressuring a Congress to amalgamate power and money as they had done in the corn laws in England. He sadly lived out his years not seeing the United States that the Angel of Liberty had led him at Valley Forge and elsewhere to found the nation, the promised land of religious freedom protected by generals such as himself, he was assassinated.

**GOVERNMENT ONGOING:** The US history of the first 200 years, has been on to the cult of idolatry of self (e.g. Adam Smith in selfish pursuit) that brought about the golden calf culture (e.g. stock market). The US is the historical lineage after England to carry the Christ standard. That standard is truth and holiness. To have what is a free and lawful culture requires observance of a history of moral law from Moses, moving through Jesus Christ, the work-ethic of Martin Luther. This historical stream set aside by Thomas Jefferson in atheism, brought the black market culture, in foreign idols (e.g. necromancy, television prostitutes, fair and reasonable interpretations versus common law of England. In ongoing historical stream is the teachings. In liberty and choice, you choose the service. (e.g. Martin Luther grace of Christ work or Adam Smith business for profit.) The teachings of service in nationalism of Moses is to teach obedience to holiness (e.g. as opposed to the obedience to adulterous President, Cain Congress, opinion-without-remedy Supreme Court and United Nations, laissez faire to consolidation of the wealth). The system of holiness as a historical stream is ongoing to receive further divine revelation (e.g. second advent teachings, automobile, home computing, internet). Sabbath is the day from danger to a day of holiness. The altar is for alteration and sacrificing pettiness, inexactitude, delusion. Holiness is a way to remove idolatrous elements (e.g. fertility cults of witches, television prostitutes, killing cult of rich and warriors, prostitution of politicians, adultery with foreigners, castrations, scalping, syringing to kill brains, war deprogramming, hemp, lying.) Economic life in the lineage of teachings is of a service in nationality, behind this ethic stood as a whole of the law of love in "You shall love your neighbor as yourself" (Lev 19:18). The kingdom is onto a kingdom of priests in spiritual ministrations to others. Any other historical stream is to repeat missteps and misery.

**MOSES:** I wrote the Bible.\* It is with this understanding that you live as a people in righteousness and holiness that you might find the promised land that is the returned Garden of Eden or the Golden Age. These laws of purity and righteousness in corpocracy, marriage or common law courts change not in time. The history of the US to become the nation overflowing with milk and honey was based on the law of the Sabbath. Where a veering happened, it would result in the foreign nations to divide the United States into colonial lots to worship foreign gods, a result in millions crossing the borders and taking property for themselves.

There is no longer a possibility to return to the Thomas Jefferson atheism. It is

a nation of those who can work toward balancing their backdirect to ascend into heaven. It does require a kingdom of priests onto holiness and purity. And for the historical stream of the highest as its presentation ethic.
