

# The Teaching of Amos & Andy 8

## Missionary Work

From a previous posting:

**Q:** Judge Holmes, what do you yourself see as to what is to be preserved of the Teachings.

### **Judge Oliver Wendell Holmes, former Supreme Court Justice:**

You would set up the introductory to the newcomer.

You would set up the ongoing services and have both written and recorded instruction on the law and decrees.

You would need to have young people trained in the legal aspects that they are not to disperse but see through getting the number of churchgoers that they understand the mission. The mission is the sounding of the Word in both Pentecost and in decree services that people know this is how they are to ascend.

As far as the Christ teachings, you have had that outlined by Nostredame as to what constitutes the Christ Second Advent teachings.

No, this Church does not need a pope. However you need the priest class, the warriors who guard the Teachings.

A 12-week program similar to Edgar Cayce's A.R.E. would work to establish new converts.

What I would say is that if you would establish the 24/7 vigils and nothing else but a morning Sunday service with rituals such as communion and confessions letter writing and the co-dependency working with people, that you are well off in establishing this new Church.

You go with the Amos & Andy and Elizabeth Wulf's women's rights way of presentation, the New York Broadway display

which was in Salvation Army in *Guys and Dolls*, that this is America, the land of hope and glory, and not go back to the old world whether it is Asia or Africa.

**Judge Oliver Wendell Holmes:** For the Negroids, I would see that you try and incorporate this way as Deputy Amos & Andy teach you in a major way. That if you have people in the communities are have the very low self-esteem, that they are hopeless about ever making something of themselves that you take it out of the economic realm and put it into Christian terms.

It is not everyone in this program as described but those on the fast track.

**Typist:** For example, you have donated clothing from the thrift stores. You then tell them, all we ask of you is to shower, get a haircut and to sit while we are teaching you reading or math. You are not asked to take a test even, only that you find the clothes you want to wear and change into it. And sit quietly or you will have harsh rules against you if you backtalk. You will be thrown out.

**Deputy Amos & Andy:** This was not what we had envisioned however you can see where in creativity, you could go there, right?

**EL MORYA:** It is a great evil that they have told you to rely on your own resources now that you have been given something from the government. There is no reason why you would not ask for the North type grant money.

**JESUS CHRIST:** We will be speaking about the new Negroid AA2 program and you would seek money for that.

**Typist:** The food is one issue. The other is medicine. About half the Negroid babies can die shortly after birth for want of baby care.

**George Washington Carver:** You would need to be willing to study homeopathic medicine. The medicine is only 2 cents a dose. These schools to teach reading and writing do not exist at present under the government by the way. They may have a program say in New York but it does not exist in New Orleans or Birmingham Oklahoma.

**Deputy Andy:** The insolence of the Negroids, the alcoholic behaviors that they go into, you have to see through these shenanigans and train them as if they are wild beasts.

**Deputy Amos:** The government programs out there are horrible. They truly treat the Negroids as if they are going to fail anyway. Even the little children programs. We have as you might say a need **to beg of you** to be in Christian charity, to help in this manner that you spend your days as Good Samaritans and be discomforted to help these who need a strong hand to guide them.

**Judge Oliver Wendell Holmes:** And it is not about free food. Have them be treated as Christians. Expect them to be Christians. Get them to learn about the rituals of the communion and confessions. Make of them Christians.

The Negroids en masse left New Orleans and the South to make it on their own. When they lost the community at that point they were in great sorrow for having lost the community, and this you would not repeat of those who went North.

What is said here is that if you are able to establish the church rituals, you have to treat these people with a strong arm. You do not go into “rights” and such lingo and jargon as this is not what they need actually— how to get on welfare, Section 8 housing and work around the police. Well they need some of this but.

What they need is the standard. This is not being provided by the government.

**MOTHER MARY:** Even the schools for White children in New York are inadequate to teach this standard! This is where you in the 24/7 vigils would clearly see in reverie what needs to be done through the Holy Spirit.

What you have read is out of the ordinary. Even if it is not complete, it is an extraordinary teaching from someone such as Judge Oliver Wendell Holmes.

**MOSES:** Pentecost is to read of the Holy Word in Deuteronomy and this includes the Ten Commandments. Thus this education by comparison is superior that is over 400,000 years of experience, is it not?
