

To The Summit Lighthouse Students

Q: You have asked of the Cosmic Council meeting. How do you recognize someone who will be leading you? In Christ Church, it is one who is a Level 5 and above.

ANDREA of Chicago: The department heads were able to make appointments with ECP and she always answered. This is not the same. When you have a dispensation or sponsorship from El Morya for the next Salvation Army or Methodist Church, it acts differently. So I myself had to go to the Chohans' Retreats to learn. For those concerns, in your finer body, go to Serapis Bey's Retreat.

MOTHER MARY: You are mistaken. The typist is not consciously recording the lessons of the Chohan's Retreats, neither other of the chelas who go to the etheric Retreats in their sleep. You would need to see where you would be as the soldier, who based his teachings on faith.

JESUS: It is where the blinding by the light on the road of Emmaus is how you know you have a calling of Light that requires a greater faith and working in getting more faith in the midst of faithlessness, as did the Apostle Paul.

MOTHER MARY: You are blinded by the light of Revelation and the Sermon on the Mount.

EL MORYA: The path is the same for each person, no different. Do not compare.

EL MORYA: Elizabeth Prophet had the Christ consciousness developed that she today would struggle with any kingdom building and have to let go of this.

ANDREA of Chicago: Then how do you tell who is to be your leader? You ask your soul.

GIZEL: The North has a greater difficulty in this. You see how the Christian priests do not understand how it is that they wholesale adopted the Augustinian model on sermons for their Sabbath service, and they are rationalists without understanding the need to speak to the soul for truth.

MOTHER MARY: The soul is precious.

ANDREA of Chicago: You know when the soul is speaking when you hear the soul say, "that's b. s." Cosmic Council asked her soul to speak as her agenda was not to simply answer your questions but to order your lives.

The soul came forth. The soul said, "This dude is a slave driver." When you hear the soul speak about women being a "dude", this is the soul speaking.

Nancy of Oregon: The first person to speak who is normally quietly sitting there is Stephen Eckl. He said, "She's a slave driver." What he remembered was the offices were filled with workers lying on the ground resting.

ANDREA of Chicago: It was not such a shock for us to see this as we ourselves in the bookstore were also required to do the 5:30 a.m. to 10:00 p.m. work hours.

NATHAN the Judge: Only the soul could tell us she did the inserts for 4 years, the bloody ones with the photos.

GIZEL: She in the outer mind thought she could lie to Cosmic Council. My children think this, they do not know you cannot on "department head" and title such as "Messenger's children" and accolades push Hierarchy around.

DEPUTY ANDY: It is not possible even.

DEPUTY AMOS: It is one way you can tell a charlatan leader. They have you think they are God. So close to God. They have a direct tie to God, you do not have it, so they will find out, they will go to

the altar, they will command their attention through aggressive pushing the envelope.

DEPUTY ANDY: The case had to be heard with this type of pushing the envelope.

NATHAN the Judge: She was not able to “boss people around” except in this particular department in which she would be the department head. So while she said she did not have time to read her Pearls, she did not seek to do this now either.

JUDGE Oliver Wendell Holmes: She sought this position to be “slave-driver” and later did pick-up the accents and outer accoutrements of nice behavior to fool others that she had changed.

GIZEL: What you see then is a railroading of others that they say they be empowerment coach however they are ones to rule in their kingdom. These then are not your leaders unless they also know the Teachings. And she did not know the Teachings, she had to go and look up the word “Emmaus”.

The 100% style is everywhere. It is at headquarters, moving where the staff went to Minneapolis and Bozeman and elsewhere.

ANDREA of Chicago: How do you deal with the 100% style yourself then?

Do not lie. Do not say, “I will get back to you.” As they will wait then.

GIZEL: What you do is to speak head on with this liar. They will blame their actions on someone else, there is always someone else to blame for their ICBM behavior.

EL MORYA: They take no accountability.

ANDREA of Chicago: Do not lie. You say, “This goes against my conscience.”

GIZEL: It is as Jesus Christ taught you, to go and find a few like yourself. Where there are 2 or more of you gathered, there “I Christ am in the midst.”

FATHER MALACHI: The demons hate the name of Jesus.

ANDREA of Chicago: What she said was, "I know the standard. And we are going to run the church the way as I know this standard."

You can say back: "We went up the mountain to seek the truth and this is what we came back with: the commandments.

"The standard is Moshe! We are under the prophecy of the return of Moshe. It is not for you to be reordering the services to follow xLanello as you are planning. But we are going to go with the Holy Spirit. We know this is Moshe speaking to our hearts to free our slavery condition of our souls. He has begun new religions and this is something we cannot deny. We cannot deny in our heart and souls that Moshe is speaking and we need to abide to what it is that he is saying no different than if we climb Mount Horeb to seek the Truth in the Ten Commandments!"

Mount Horeb

GIZEL: You do not "suggest" *anything* to the leaders in Bozeman. You yourself are asked to be an ensign. You are being asked to carry the torch! Of the lineage. Of Church Universal & Triumphant! It is not about Lanello the Moslem! It is about the Church of Christ!

EL MORYA: What you are being asked to do is to form the Church with representation.

NOSTREDAME: You would operate as the Swiss. Switzerland is a neutral country. What they do is to seek cooperation and this is their style of survival.

The Alps is a place in which they naturally think of preserving their culture and livelihood, with you, it is preserving the

Church of Christ. They must live through the ever present danger of the avalanches, and the corruption of foreign nations usurping power in kingdom usurpations. What you would seek to do then in this hour is to find that neutrality of the Swiss to move forward as what Moses has said.

MOSHE: The neutrality of the Swiss is towards representation. Otherwise the leader issue is explained in this way—

What you would come to understand is as the Negroids in the South. They understand that Christ is in command. Christ Jesus, Christ Moshe. And this leader did not see it this way. She thought that she had skills in abundance and that was what was needed and this is not what is needed. Christ consciousness and Christ teachings wedded to the soul is what has been described as the bride of Christ teachings. This is what you are looking for in a person's aura. This one did not have this garment. And you would look for this wedding of the soul to Christ consciousness.

You might say, this is the kingdom of which Jesus Christ taught, "My kingdom is not of this world."

The neutrality of the Swiss is however what you would seek yourself to undertake. Who are you representing? You are representing Mother Mary. Moshe. Jesus Christ. El Morya, you see. You move in piety. This was not taught at the Summit Lighthouse. I taught this. And Jesus taught this. It is a part of the Christ teachings.

JUDGE Oliver Wendell Holmes: You form a legal quorum of 4. You say, "We have not done the inserts with chainsaws with bloody axes over photos." From there, you say, "We represent the Church members of Bozeman."
