

To The U.S. Catholic Church

Q: In warfare, they recommend that armies do not use weapons but propaganda. You are about to start the Sabbath services the way you and the laity want them, and the Catholic hierarchy will put a stop to it.

NAPOLEON: They will use propaganda. They will supplant information and perhaps evidence that you are a “womanizer priest” and you fathered multiple children and they will have it paid for in newspapers and such to ruin you.

What you have to do is not wait for their move. You need to put your *97 Theses* out there whether it is on a website or in the newspapers, on the church doors or however you want to blanket an email to let them not take you down. It is the way of war that you are in control of the heinous propaganda that they will set upon you.

DEPUTY AMOS & Andy: Other than that, they will send out paid thugs to kill you. However you can see that many of these culprits such as the CIA have already been decimated in their ranks.

JESUS CHRIST: What can be said is that you are as Saint Patrick and that you have serpents to deal with.

MOTHER MARY: It is not to be feared such as the Bulgarian assassin of John Paul whom as you know had to support the pedophile regime “or else”. Rather, that you are not vulnerable when you have your legal papers in order, when you have instructions already for the Sabbath service and what have you.

JESUS CHRIST: In Pope John Paul II’s position, he had to deal with the politics. However what matters if you have your legal work and papers in order?

MOTHER MARY: Even if you have to disappear for a time in order to get this in order, you would do this.

JP Morgan: Lock yourselves up until you finish. The same as I did to save the US banking industry.

NAPOLEON: They will use propaganda. Try to deal with this! You know the IRA in Ireland were ones who also dealt in the propaganda of war. To them, individuals are not their concern but the war at hand towards an *organization*.

NOSTREDAME: It can go pretty quickly. You write your *97 Theses* and then what you plan to do. We have already written quite a bit on this matter. Here are some examples for you to consider.

Churches where laws conflict are to follow US laws, especially where they have treaties and foreign nation agreements, where they are found supporting nations of acrimony, US jurisdiction applies.

On Christ Anonymous. While there are many Christ churches, in the work with the central government, it does not declare any church over another and working as cooperative. Where the work of churches is required such as in the establishment of marriages of the Eagles, and the California Missions, it will be called Christ Anonymous.

A Church or government agency is to keep diplomatic documents for inspection (e.g. the one claims he is Messiah is tax evader). West Alps reviews these for malfeasance, and for dogma or practice deemed heresy to divine law. West Alps will also see absolute good and absolute evil in education and media (e.g. monsters and demons in children's textbooks..)

Sabbath: So that the US to become a fascist state or have jihad as religion, freedom of conscience is honed in Church on the Sabbath over the 2 ½ days.

Churches can keep Sabbath attendance for community hiring data. To have a US nationality Churches works in a higher moral standard when the sacraments of marriage, child rearing, sanitation, property, wills, legacy, community are made regular customs of the Sabbath to tend to family matters and shoulder community in prayer.

In the arena of voting historically, electors and the media in a democracy eventually goes under despot or fascist government control. To have a free country, central government authority will not force uniformity to free religion or press expressions when the citizens are not breaking Ten Commandments.

Sabbath in population centers. The Eagles are responsible for the next level of family from his own family. A community is built on family, property, work, productivity.

Marriage, competitive public education, child rearing, confession, Eucharistic conveyances, birth and death are provided for law abiding citizens to inculcate culture as *raison d'être*, the ubiquity of higher law by the

Sabbath. They learn common law on Ten Commandments and Cosmic Clock to be law abiding citizens. The middle class is as the national standard toward nationalism. Scientific research of Erich Fromm indicates without teaching of evil, citizens will torture people in organization. The churches are to publish their catechism with canon law for those who might enter if they be recognized a part of Christ Anonymous.

The religion of free democratic nations is the Christ Standard for morals and *raison d'être* against servitude to barbarianism, to political corruption, fascism and old world vendettas to hire murder. The common law courts are to seek jurisprudence not backbiting. Belief is educated on two principles: backdirect and mastery of self in toil or work ethic. The study of evil will be both in schools and churches, (e.g. history is the study of Cain slew Abel.) The soul continues to live after the body dies. To establish permanent work ethic in greatness, more than one calling is ascertained later in 30 year intervals.

Three intelligences not one are recognized: reason, heart and soul intelligence.

No church may have as their pope in foreign nation, as the US is the chosen people. Any priest found in pedophile or killing wanton is killed. Priests found in adultery or fornicating or an homosexual priest will be excommunicated and put into FBI files if Christ Anonymous might work in the education and marriage of the eagles.

Moral education in family, child-rearing and marriage is province of church, then cooperatives of Christ Anonymous are funded by taxes.

Churches not to engage in social evils, but to attend to marriage, birth, death, health. (e.g. church feeds the illegal aliens). In social ills, they are to complain in West Alps or to take up the Judgment Call of Jesus Christ. The churches have responsibility to teach on the enemies of Christ including terrorism, jihad the war against what is holiness, the work-ethic, study of history by teaching history repeats itself. The churches can teach of Isaiah, wars and social ills (e.g. however not to be gifting arms to foreign nations mentioned in Bible.)

Marriage: Men and women require stability, safety and integrity in the binding of the flesh, therefore marriage is monogamous. Marriage being legal in heaven, before Cosmic Courts, criminality or backdirect is assessed, legal marriage is serious.

The Ten Commandments represent over 400,000 years of experience according to (Moses. Fascism by Church control will not through tithes and property usurpation control but to follow total taxation in science of administration. The over 90% concerns require cooperation of citizens, government, and West Alps courts. Where there is a shortage of common law judges, court will be held elsewhere.

NOSTREDAME: The final draft.

The US will teach religion. Historically an irreligious nation through government decree is to place the onus of moral behavior on leaders when the citizens themselves are not taught divine law to lead in morality in family, marriage and divorce, war, capital punishment, euthanasia to counter a dictator in a free nation. As Christ Anonymous is to marry the Eagles, to create a culture of the work-ethic greater than for business but the right use of freedom, a life away from profit-making only. Community at its best is to see to values and care of community with no fascism associated.

As family values and education is the responsibility of Christ Anonymous, and TV media is education and indoctrination, Christ Anonymous has a right to shut down in Lightning Technology business of the TV prostitutes as a family does not have equal time to TV to inculcate morals. Christ Anonymous over other social ills would complain in West Alps.

Sabbath: Elementary school is to learn to read the bible, not to follow TV indoctrination. A free people are to be raised with ethics and moral excellence in history, art, architecture, music and writings, health and intelligence and Golden Rule. The standard for learning English

writing is Washington Irving's Notebook exercises on rhetoric.

Adult education goals including to improve society, civilization, agricultural methods, bring enlightenment, propaganda, study, vocational, fraternity.

Aesthetics Prediction and Control: For beauty, mental improvement, moral integrity in nationalism, art in public places to be judged by a panel of higher mammals or babies scientifically employed to determine the positive emotional response to images and sound in architecture, art, music, sculpture, without which the ugly, insulting, degrading, perverse and primitive appears in public places to foment a seeing, thinking, emotional life as chaotic. As found in agriculture community, where there is practice of breaking the Ten Commandments, community fails. Creation of art is accordingly ethical or morally bound. Motion pictures, sports and surrealism will come under rules of aesthetics and for its propaganda and mass hypnosis effect to make eagles idiots.

Education to follow Aristotle the teacher in pedantry not creative dreaming sophistry of the "new and original". Pedantic teaching of language, rhetoric, grammar, geography, religion is to inculcate a high civilization (as national standard) of the elements of righteous tradition. Custom is teaching modesty and not radicalism and toleration of the vile. Teaching right and wrong or religious significance (e.g. what you believe comes to pass.) Schools are responsible for the culture inculcation where other nations see the US as a corrupting influence does not happen again. Words and sounds are laboratory tested for corruption of the people. To supplement pedantic teaching, are the advanced flashing method of sight and sound that isolates in teaching elements.

The lower classes are to be given sufficient education, higher education made almost free. Libraries are made for self-education in high civilization. Architecture is to not resemble low culture of Babylon but of high culture in gothic design.

In whether to admit the persecuted, a nation's refugees are judged on their Christian or Judaism past, and also, by

their current juvenile delinquent behavior. Some nations have theft as their primary deviance. Other nations, due to their broken families, engage in child molestation or breaking skulls or torturing or cannibalism or violent religion or heart gouging. These nations are not considered for immigration.

MOTHER MARY: Much more work is involved for church anonymous, such as harvesting by the young people, however church anonymous are the ones to maintain a standard of behavior.

ANDREA of Chicago: The dress code is enforced. The language. There is a place for people to meet one another, only that age group attends.

NANCY of Oregon: Our senior centers have a coffee area, a place to shoot pool, play bingo, art, computer, tax classes. They are open 5 days a week, sponsored by the counties.

MOTHER MARY: The young people can be open to all in the community. It must however be supervised by the church anonymous.

MOTHER MARY: It is not aggressive such as Table for Two, but it does provide introducing men and women on personal data. Once they commit to dating, the church anonymous would give the guidelines for dating, such as no fornication.

MOTHER MARY: The work of Christ Anonymous is to provide teen centers the same as we have several senior centers in every city. To marry the eagles. The activities would be similar to the seniors, such as art classes, adding karaoke.

NOSTREDAME: The capitalists own and run the newspapers. The press is not free.

NOSTREDAME: The Socialists and Communists lie if they say they are cooperatives! This is fascism. And if you object, you are sent to hard labor or the Gulags!

Typist: See too, it is what is needed in the press, that you do not have an USA Today head person dictating all press interests such as travel, fashion, buy, buy, buy. How about a section on environment! Would that not be free press!

NOSTREDAME: The British have some good experience with the cooperatives, albeit they fail in the face of competing with capitalism. However see that the farms are in cooperatives, much of the forest lands are managed by cooperatives where there is not a single head person, only purpose.

Typist: Cooperatives fail in too much compromise perhaps. But unless the Churches break the 10 Commandments, there is room for creativity.

NOSTREDAME: There is economic incentives both as buyer and seller in cooperatives. And this would be considered in the Church cooperatives.

The cooperatives are the ----->opposite <-----of both capitalism and Communism!

Typist: The 40 year war in France is not understood correctly if you think it is between the Huegonots (Protestants) and Catholics over religion. It had to do with the church owning so much property and about agricultural tenancy.

NOSTREDAME: It was about the have's and have-nots. This argument is fallacious, if you say religions fight.

Typist: What I was told by Nostredame was that Constitution is short. The notes that back it up are in the Declaration of Independence to explain the Constitution.

JESUS CHRIST: This can be many words. However if you would do the foundational work that will be most vital, then you are freer to move.
