

## Confronting Stalking

**Nancy of Oregon:** There has been an overwhelming response of writing to the Karmic Board by those at the Summit Lighthouse who were raped as children. Their lives were ruined.

**Typist:** In each of these cases, they are asking a different question although I will list more cases.

- ❖ One person asked about the 3-way sex with her mother with the teacher in charge of the 3-ways at the children's school. She asked, "Do I call for her second death?"
- ❖ You had the child who had his head dunked in water and the mother forces his head into the water and says to him, "This is what I think of your Elizabeth Clare Prophet". And this is a small child under 10 years old.
- ❖ There were the scores of children who saw Elizabeth Prophet have sex in a place that the children could crawl to see and this was so that she tie the children to her as it was such a shocking sight.
- ❖ You had the pedophile who had pictures of the children and would masturbate to them. With his own child, he would touch the genitals and go off to masturbate.
- ❖ You had the mother assigned to "strict obedience to initiation" to molest her own children as she had the large family of 12 children in the family.

**GOD HELIOS:** I ask you to take this phraseology out of your vocabulary! You are to live by law!

**Typist:** There was...

- ❖ You had the woman that who was given over to her uncle to become a concubine at age 14 and came to the Summit for shelter.
- ❖ You had the two children violated by the father and brother as he said, "I liked sex and I thought I could get their mother and them to service my sex needs."

**ANDREA of Chicago:** Well, first of all the word "needs" is unbelievably something vile.

**Nancy of Oregon: *It is false!*** You do not have a need to steal! You have no need to massacre! You have no need to push open the steel doors and sheaths of the secret rays and break up and ruin their lives! In another! In your children!

**ANDREA of Chicago:** Is it some compulsory "need" like eating food! It is not. This vile and base behavior is worse than even a wild animal.

**Typist:** To the one letter writer, calling for the judgment of your mother not enough. We have over the years spoken about the need to say, "I'd smash your face if I could, I'd cut off your dick if I could." And this is for any violation of the secret rays. Any thievery, any stealing of your computer code. Opening joint accounts to rip you off by having you co-sign on loans.

For her, you would slam the receiver in her ear and say, "This is what I think of your children hating church. Go to hell".

**FATHER MALACHI:** "Go to hell" is also the judgment call. Your mother had no excuse for what she did. You would not forgive her.

**ANDREA of Chicago:** We told some children to take the phone receiver and slam it on the hard table and tell the criminal to "Go to hell". They can even say, "Do unto others as you would have them do unto you." which is from the Bible by Jesus Christ. You slam the receiver down into their ear and you keep doing this until they know they ruined your life.

Is it spontaneous? Yes. Maybe they rip you off by having you to wash their car.

Most of these children never marry. The male children go to the prostitutes later in life. But all this changes over time, as you process the pain, deal with the injustice of their cowardice to ruin your life behind closed doors, and you straightway deal with their stalking behavior. and you would not cower at seeing it.

**EMPEROR LeAMTHE:** We had the largess heart of one parent who gave their children FedEx envelopes to send to the teacher and tell him off and how they hated him. How he ruined their lives.

**MOTHER MARY:** It is spending the time and money to put mail into their mailboxes that indicates your own rebuttal to their injustice practiced upon you along with your mother.

**DEPUTY AMOS:** As you know, the writing of a police report often is not adequate for your soul protection.

**DEPUTY AMOS:** You learn what is stalking behavior and do not say "it is nothing." You confront it. Asking, "You following me?" Stalkers have a heavy energy following you around, calling you on the phone. You slam the receiver on the hard table, tell them you are going to the police, they know you from where you work.

**Nancy of Oregon:** Of one reaction of the child abuse, the child who was in the big family then went on to get back at Elizabeth Prophet by the sell-out of the ICBM secrets. There is a different outcome in each of these situations, however, we do see the necessity to hold a closure session in all of this.

**Typist:** The one who had his head dunked in the bathtub water did confront the mother on the phone. He survived all these years because Josh his friend from college heard his story about the head dunking, he had known no one to come out of the closet with.

**ANDREA of Chicago:** But that confrontation was only after he had moved away for some time. It was after doing the whacking the towel exercise for 90 days. Pumping iron.

**MOTHER MARY:** He was told to go back two levels in his weight lifting work. And then he confronted his mother.

These are put into families of great evil and hatred. Therefore we ask you not to use the word "mother" or "father" but that you call these criminals by their legal name. They are not your father or mother.

We are talking here about ascension candidates. So their crime is even greater.
