

## Altar Work

**Nancy of Oregon:** You left the altar because you felt betrayed. The truth is that the weakness you have towards following stalkers in which you are clueless to, is the design of the false hierarchy after you die. When you however make friends with Christ, you can have these records removed.

← For example this gorilla with the sympathetic eyes.

**ANDREA of Chicago:** He is larger than you! He is the teacher. He is the male parent. He is the teacher, the priest.

**Nancy of Oregon:** When you get to the other side, you can find the assistance of say Archangel Michael to coach you. He says, "You have a greater power now. Flip this record out of your mind."

**MOTHER MARY:** This coaching you can expect when you pass over in death. It can be expected, waiting for you, if you stay tethered to the altar work.

**ANDREA of Chicago:** Meanwhile it is not easy. We had a victim of child abuse. This male was living off of her largess of heart coming inside the house for meals while he was sleeping outside in his van, wanting sex after the Sabbath service.

**MOSHE:** This in the Talmud is not allowed. This man is in the deliberate stealing of her Light as she had been the victim of child abuse.

**Typist:** She would slam the door in his face and everyone would now think she is a tyrant, and she is not. She went through the various programs on what victims must learn to do.

**MOSHE:** You are a holy people. Now you can come to understand what is beauty and holiness, and it is that which is eternal.

**Mathzedes:** Can you find the Golden Rule and find out it is for yourself and it is to teach to others! Or "what goes around, comes around."

**Typist:** "You do that, and you will reincarnate in a hut in Bangladesh along with 16 children."

**MOTHER MARY:** This is actually a true story. Those who abused the freedom in the United States would reincarnate in places such as overcrowded India and Pakistan. They reincarnated there to learn of how not to again abuse freedom.

**MOSHE:** Being a victim of child abuse, what you will find is that by tending to the altar which she did at the study group, that she gathers a great strength onto herself. And this you the children of this horrible abusive community must find your way in this manner, to find where you can tend to the altar as who you are, that this is your body, it cannot be violated. In the community, you will find like-minded Christians and those who love God to protect you, as you tend to the altar yourself.
