

Ford in River¹

Sadducees Or Christianity

JESUS CHRIST: Realize who the Sadducees were. They were the leaders. These rabbis had the role to interpret the Mosaic law. And whatever they said, the people were to follow.

FATHER MALACHI: At that point, the Jews were either to listen to the Sadducees or break off. The Christians were found with either to following them or to secretly follow the message of the Messiah in Jesus Christ and Mother Mary by becoming Christians under the so-called apostles.

FATHER STRONG: They could not publicly admit and say that the Sadducees were the ones who led us to the Messiah.

FATHER MALACHI: It is not altogether that the thousands did not follow Mother Mary. They did. Only it had to be done under cover. That they were following the apostles. Not the Sadducees word. If you understand this, you are able to see that these found fault with the Babylonia-Jew system where they were not studying the word.

FATHER STRONG: The word came through Mother Mary in the 30 years. It was the poultices, it was the resurrection teachings from Egypt, it was the soul before the gods that needs healing and teaching. The newfound Christians could be humble before a system of cosmic intelligence and cosmic wisdom.

¹ **FATHER MALACHI:** The "ford in the river" is the low ebb that you cross over the river. It is a time of decision making.

FATHER MALACHI: They did not assume any longer a system that they were the chosen people and all they needed to do was to be fearful of the Korah rebellion in the book of Numbers that the ground would swallow them up.

They lived in a new way that had not been for a long time, since the day of Moses, where they tasted of a new freedom to live for the word, study the word, in a study of the Christ teachings. This was the newfound freedom that the Christians felt. And this, they began in their studies with Mother Mary early on, only they lived a secret life. And this then continued on as the years passed even though she had to move on to England with Joseph Arimathea and Mary Magdalene and the other disciples.

You can see the reaction of Aimee Semple McPherson to this system of Christ teachings. She said she had a ministry of evangelism in *healing*. She said, "I followed the healing from Mother Mary."

"And so you see, these people reached rock bottom in coming to Foursquare Gospel Church. There were mounds and mounds of the crutches and wheelchairs. In the Church of Christ, the Christ message, it gave them a new hope."

FATHER STRONG: So the religion of Christ is always this, that you do have the gnosis, the pilgrimage, the steps whereby you are reaching a rock bottom and you are in this way having died, and you "resurrect" onto the word.

MOSHE: You raise the light of the temple. You are living in your heart flame as your altar. You are not living as the Solomon's.
