

**Thanksgiving  
2017**

**Where are we  
this  
Thanksgiving  
2017?**

**NOSTREDAME:** The war is on low prices. And this is not something you yet understand.

**JESUS CHRIST:** Of what is being asked of you to do.

**Typist:** What the Military Law Council decided to fight back. They have been letting the shipments of low price goods go through customs however, they are to pay the custom slips.

**Nancy of Oregon:** Of course, Red China does not want to pay the custom slips. The Americans are paying them by emptying their shelves first. And this was a great outrage to the justices of the United States.

**MOTHER MARY:** What we show here are the remarks by Judge Oliver Wendell Holmes. You can see that the nation is governed by law. The judicial system is based on the Ten Commandments. Other nations, even Islamic law although they have laws of fair treatment of women, will punish them with lashes without sufficient service in judiciary. Law is arbitrary.

**JUDGE OLIVER WENDELL HOLMES:** You have heard that the super low prices has been used as a way to take away the jobs, the household and clothing market as in "-----". This is a "strategy of war".

Their not paying the customs slips is contempt of court and it is for Red China to pay, not "-----" or "-----" to empty their shelves and pay them!

**NOSTREDAME:** The US Constitution forbids foreigners to own US real estate. Red China has purchased a stupendous amount of New York real estate.

They have killed over 1,000 motel owners across the country to take the motel at 10 cents on the dollar as apart of the killing seniors program to steal money from seniors where the heirs see nothing of this money. They own HUD housing, raising the rent every year, milking the government subsidy programs and killing seniors. This real estate must be seized now.

**MOTHER MARY:** One way or another, we want the Red China enemy out of the United States.

**JUDGE OLIVER WENDELL HOLMES:** Contracts are null and void when there is illegality.

**COMMENTARY:** The killing of 48,000 seniors in Silicon Valley is illegal. The running of the morgues to hide the dead bodies! They have their own paramedics to pick up dead bodies of seniors!

**GENERAL OVERSEAS:** The castration of 17 million soldiers is illegal!

**JUDGE OLIVER WENDELL HOLMES:** **We in the Supreme Court have to look at the killings squarely. The fires in Sonoma, Napa and Mendocino County. We have to look at the ICBM missile prototype stealing and then to**

**manufacture them to aim ICBM's at the 5 US cities! We have to look at all this to create custom law!**

**NOSTREDAME:** You need to help the motel owners. The children actually lost both their parents and inheritance. It is not just that Red China calls this a free country and they kill anyone to steal what they have as their own when the Eagles worked all their life for their motel!

**JESUS CHRIST:** Your question on what do you do about the low prices is for you to stand in honor of the US Constitution that has been written for you by Nostredame who comes from a long history of the free states throughout the world.<sup>1</sup>

**GOD SHIVA:** You may think that the thugs out of Red China being more adept at the sword eventually win out. And that is not actually true. It is law that will.

**ANDREA of Chicago:** What is being said is the same as of Judaeo-Christianity— that you love the Light and not the Dark. That you see that the “being rich is glorious” of Red China is not attained by coveting and breaking all the Ten Commandments in stealing and killing and prostitution and adultery.

**GOD SHIVA:** Where on average the Red China thugs kill 2,000 people each. Without any regret or shame.

**Nancy of Oregon:** This is not something you understand. That people pile into cars to go to killings. In you and your TV

---

<sup>1</sup> Including the Bourbon royal family. He himself served the king and queen of France. He has a great understanding of the necessity to train people in the universities towards freedom and the necessity to kill organized crime.

shows, killing is as one-on-one, you do not understand genocide!

**GOD HELIOS:** You have not experience with genocide. And this is even when we point it out to you— **the castration of tens of millions military in genocide!**

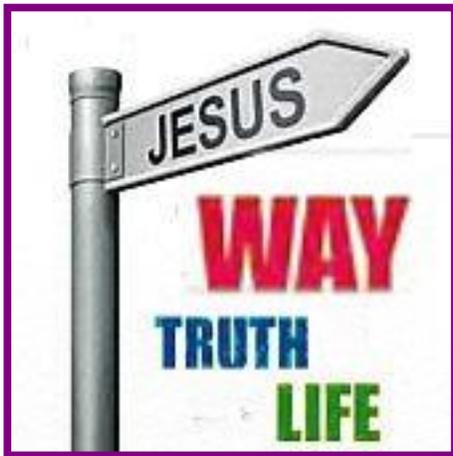

**ANDREA of Chicago:** When you are in tow with the rituals of Moshe, the ladder of pepi Pharoah into heaven, you are bringing even cosmic law to bear into the human conditions. It was always said of the US Constitution that it is a divine document.

**Nancy of Oregon:** Certainly the 4 sacred freedoms: the freedom of religion, speech, assembly and press are sacred.

**MOSHE:** However the media has been taken over. You do not have a free media. And what we have asked the military to do is to stop the fascism in the media. You can see that it does not reflect the values of Judaeo-Christianity. How is it possible for the people to live in peace for and by the religion that it was founded upon, it is not possible.

**NOSTREDAME:** What war you have is on low prices. If you would choose liberty and not death, a death where they kill you for your car, house, pension and assets, and have you pay taxes to them as a Hong Kong Colony, you would see that you create those low prices here yourself. You would remove Medicare from Social Security and stay solvent in all areas.

**MOSHE:** Although the nation is economically based, it must be religiously based. If you only consider you are only another shoe manufacturer, you have not rightly understood economics. Thus it was said of the baker by Adam Smith, that the baker will in selfish interest sell his bread for barter. This is actually

wrong. The baker bakes because it is compassion that others have food.

**JUDGE Oliver Wendell Holmes:** That is indeed true with light and power That had it not been for Thomas Edison thinking in this way, you would not have light and electricity.
