

Mao Famine

Reality Check

Mao Famine

GOD HELIOS: The United States must no longer be a part of the world political game playing. They cannot be a part of any UN, NAFTA, common economic-marketplace, joint military, NATO, pacifism to be shot at in Iraq. The problem with the international authority, international agreements, NAFTA treaties are the ludicrous assumptions you make that the agreement is honored by morals and reason. They are not.

Sergeant York: The G20 nations signed an agreement to poison the Great Lakes with chemicals and in small print that they are not responsible for any mishaps along the Mississippi River in case the river is poisoned and all the crops in the United States would be damaged for a long time from this poisoning. It is in small print, the disclaimer of the G20 nations!

NOSTREDAME: This was the small print disclaimer of the G20 nations document to hand over the US to Red China.

How they would make this transition of making the United States a Hong Kong colony was through a poisoning of the Great Lakes to bring the United States to her knees as it would poison all the crops of who got their water from along the Mississippi.

What I saw in my vision was Red China under Mao were spraying the crops. I had not known that he was poisoning the crops in order to cause a famine to amalgamate power.

I furthermore did not know that the people would resort to becoming cannibals and from that experience during the famine, to continue in through to today to do their cannibalism as a so-called “empowerment” or mobilization of citizens who had suffered in the famine.

JESUS CHRIST: They have had an isolationist policy toward the Christian West.

NOSTREDAME: And Red China still has an isolationist policy as you can see in the cannibalism. This is what they resorted to. They would not even accept the help of the Welsh priest who garnered money for the famine from San Francisco and Los Angeles Chinatown Chinese, to serve as Christian relief. He was ousted out of the country.

MOTHER MARY: For they fear to be converted? They sought not to be converted to Christianity.

GOD HELIOS: Not then. Not now. They will bring you down to your knees by poisoning the Great Lakes.

MOSHE: They will not convert to Christianity. Even what you hear of their Baha'i Faith is Moslem. As they will not convert to the Great Commandment to love one another but continue to be cannibals, you only have one choice, and that is to not trade with them.

MOTHER MARY: They certainly cannot be on United States soil. Or you are the target of their next stalking and killing for money, house snatch and land hoard.

COMMENTARY: I remind you that they are copyright infringers. They do not buy cars! They simply steal your car!

Bill Gates: They take whatever they need. So you see how they, to operate their organized crime in the United States, needed cash. They and the Germans then seize the local police office and then I have to go down and kill them as they are expecting the cash to come from Microsoft through extortion. Through stealing it.

COMMENTARY: They do not even buy Microsoft products. They put the program on the cloud, and they have effectively pirated your US software!

Bill Gates: These are the facts.

They cannot think outside this box!

They are like the thieves on both sides of Jesus Christ and they do not change one iota to be American! They think they will inherit the kingdom of God just like Jesus Christ.

Commentary: They think, you live on our property through the low prices. We own you through Walmart and Target. You are another one of our Hong Kong's and Singapore.

NOSTREDAME: Under the new United States Constitution, you are to kill organized crime. You ask if the US is in the G20 nations agreement and the answer is yes.
