

Playing God

NOSTREDAME: We have said that the missiles directed at the United States even of our own making was through the past Presidents who had command of the military. They moved the missiles off into foreign nations to blackmail the government of the United States primarily in the handover of the United States to Red China as a Hong Kong colony.

ANDREA of Chicago: At Guantanamo Bay, the President let out the very criminals who bombed in 9/11. Nostredame said that this was the test to see if the President would be *able to do whatever he wanted* with the military. It not only went forward without any criticisms or obstacles, it led the way to the horrendous atrocities including cannibalism on our soil of workers in government housing, in FBI and other agencies, in TV media eating our people.

NATHAN the Judge: We are currently told by a judicial higher power that in an 100 years, there will be the earth axis shift to cause the flooding and destruction of the continents. The 2 reasons given by the higher power was genetic engineering and nuclear power—that in both instances, there was no control over its misuse.

GOD HELIOS: Half-animal and half-human creations have been noted to you.

Nancy of Oregon: The destruction of Atlantis was due to many factors. One was the energy scientists were not satisfied with the power they got so they drilled to the core of the earth. They were warned by other scientists that you are tampering with God and you will not be able to control the sun in the center of the earth once you unleash its power.

NOSTREDAME: In their arrogance, they drilled to the core. And the volcanoes erupted and broke up the continent, even as the tectonic plates rapidly deteriorated to cause massive earthquakes that caused tidal waves and the continental breakups. The only priests to escape were ones who were watching this months in advance and did leave for Egypt in advance where you now see the pyramids.

Typist: In the following excerpts, it says again and again, Atlantis needs to be destroyed because there was no respect for the life force. They also were into cannibalism.

J: There are some real cruel things going on. It looks like people that are attached to animal bodies. They've got them in this arena, and they are forcing them to fight each other. Its like Roman gladiator contest type things.

D: What do the creatures look like?

J: I can see one creature. He's a man, but it looks like a man in the middle of a horse's

back. He has four legs and the torso of a man. And he's in the middle of his back. It looks like he was grafted on. And where the horse's head would be, is just empty space.

D: It sounded like he was describing a centaur. What do the other creatures look like?

J: Oh, there's ... it looks like a jaguar... the face of a jaguar but the hind legs of a human. The back part is like a human body. Oh, its just terrible! It's like these are genetic misfits. They're very cruel to them.

D: Are there only those two creatures?

J: Oh, no, there's tens of them. I'd say there are at least a hundred to two hundred. They're all in this arena. They're all fighting each other, and they're having a battle of death. And the people are kind of sitting around, and they're not clapping or yelling or anything like that. It's just amusing to them.

D: Can you see any other combination creature?

J: Yeah. There's another creature that looks like a bull. It has the horns and the face of a bull, and the body of a bull, but where it's legs would be there are human legs. These things are really grotesque-looking. There are others. There's a thing that looks like a snake with a human face. And then there's ... oh! An animal that looks like a giraffe that has a human face.

It's like a sport that these people enjoy. These people are very cruel.

D: I would have thought if they were telepathic, they would be more understanding and gentle. It's not that way?

J: No. Actually I get this feeling that they are very, very proud, and they look down on other creatures. They see all the other species of Earth as just terrible animals. And the people enjoy watching this, but they don't clap or show any expression. They don't yell or scream or show any emotion. They like watching it. Its entertaining to them.

D: It seems hard to understand someone having entertainment and not showing an emotion of some kind.

J: Yes, they don't show any emotion. It's so different. These people are really not nice people. I mean, they're cold. They're superior. They have a real distaste for other lifeforms. Now they're walking into the arena. And they have something like guns, but they are made out of crystal. And they're directing them at the heart centers of all these animals that are left.

D: The ones that didn't kill each other?

J: Yeah, and they're killing them. There's a beam of light that comes out and centers right around their heart. It looks like a laser, except that it's a beam of light, not a laser. (Sounds of disgust.)

ANDREA of Chicago: These arrogant ones went in aircraft to an primitive tribe. Killed a young man and cooked and ate him for fun.

MOTHER MARY: Cannibalism is where you cannot pass.

NOSTREDAME: To have a former President to castrate 120 soldiers in a separate area from the generals to inaugurate this massive genocide of the Americans is playing God.

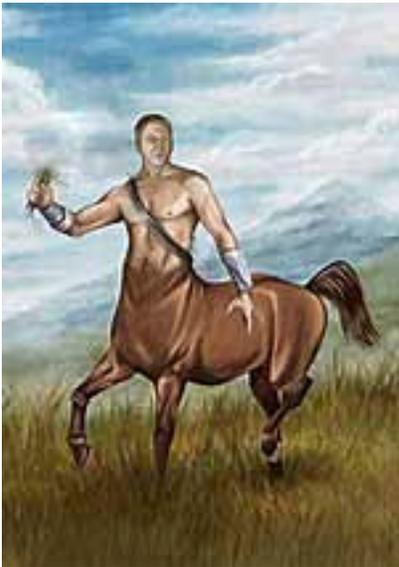

MOTHER MARY: This cannibalism has been foisted upon the United States. The castrations are of this same ilk.

GOD HELIOS: We ask that you come to your senses. That you not play Guantanamo Bay and release the very killers and masterminds of 9/11 because you are the President.

We ask you not to play God and castrate soldiers because you are the Commander in Chief.

We ask you not to create half-animal, half-human creations in your arrogance and play God.

The earth is to be cared for. Even pollution cannot be made so narrow-minded, bigoted and dogmatically, without in planning meetings mentioning scripture that you live under—thou shall not kill, thou shall not covet. You do not even blink at atrocity, you would be creating. You must see that you do not make nuclear power plants but work more diligently whether with crystals or magnets or another form of energy-conveyance and of holding ways used in the past and not relegate nuclear power for profit's sake. The nuclear power of which this higher power was highlighting included the power plants, that even Bhopal does not bring a tinge of conscience that this must not be attempted. The nuclear power way is not the way for the earth. The earth will burst and you do not know that already Maldek which was the planet between Mars and Jupiter was destroyed by nuclear power and is now called the asteroid belt.

Nancy of Oregon: The Department of Energy is not God! But you can see in your mind what it means—that because you vote, you assume that the Department of Energy will be morally right in whatever it does.

MOTHER MARY: You must see that the military is able to control and protect this land and earth for these conditions. A flood may be in order, however the greed is for you to contain.

GOD HELIOS: And the common sense of living on a beautiful earth can be or it be easily destroyed by not thinking rationally and abiding by an accountability in being human.

ANDREA of Chicago: If you are going to get goose bumps watching life forms suffer, watch out! You will be going to the second death like insensate El Morya and Saladin!

NOSTREDAME: And Muhammad. To some extent, Elizabeth Prophet watching her staff suffer! You cannot be sadistic and cruel and not enter into the highways of greed to torture and be stopped ultimately in a short while for such evil.

ANDREA of Chicago: We need the new US Constitution to curb unchecked power of the Federal government. You see on Atlantis how the people governed themselves easily as they had representation. And even now, people say, “Nuclear power plant? Not in my backyard!

Go to Arizona, not here in New York.” And the people in Arizona seeing the Grand Canyon say, “No! You see these craters? It was some violent force that created this! Take your nuclear power plants outside of Wall Street gimmicks to push it through with money and Washington D.C. power.”

Nancy of Oregon: However the line is drawn in terms of power— that it not be given over to any President. It will be determined by the people who live there who are not trying to play God for the rest of the nation. I lived in Grand Junction. So you see, this beauty is quickly taken over by some bureaucrat who plays God in D.C. Living in Grand Canyon is not Grand Junction! Go be there and see for yourself what I mean!

NOSTREDAME: The new US Constitution has to outline a strong military to protect the borders and the nation in its culture and raison d’etre. It has to give back the powers of the economy to the States. Granted that the waters going into Utah, Idaho, Nevada¹ would open up new people ownership. However it must be done where the military carve the canals and the water flows there for the States to improve upon.

ANDREA of Chicago: Neither the Department of Agriculture is God! It allows our food to be so tamper with the fertilizers that the food is not nutritious. They are not God!

MOTHER MARY: Neither is the Food and Drug Department that allows the poison drugs into the nation and is funding Medicare and Medicaid. It does not recognize homeopathy, nor pays for it. It is satanic!

Typist: The vaccines are playing God. It puts poison into the body. Look at the polio vaccine. This was administered to children for a virus that causes a freezing paralysis of the back. And now, as adults, these suffer from chronic back pain as small parts of the back have “frozen paralysis” from the developed original vaccine poison.

MOTHER MARY: It is a fallacy that the vaccines work! You are better to take homeopathy in advance of any virus! This governmental interference is arrogance and satanic in nature as the adults will suffer for these vaccinations placed upon young children routinely and are being government mandated. They play God and this is again a nuclear disaster so to speak.

NOSTREDAME: These then are the considerations for the United States Constitution.

GOD HELIOS: And for you to abide by a humility not to play God!

NOSTREDAME: It is the arrogance of unlimited power, the greed for energy, it is a greed in scientific achievement that must remain within boundaries of morality and common sense

¹ The federal government owns 96% of Alaska, 64% of Idaho, 86% of Nevada, 65% of Utah.

living on earth. That the very killers of 9/11 are not let out again! As you have the title of President!

J: The Atlanteans are also cannibalistic, too. I saw this party of them eat another person.

D: Do you think it was one of these animals?

J: No, it wasn't one of these animals. They captured this man and ate him. This was outside the city. There was a party of them. They went in the airplane. And they captured one of these people and they cooked him and ate him.

Yes. This was why Atlantis had to fall, because they were abusing the life force. They just did that to be inventive. I get the feeling they were not very nice people. I don't like being here. I'd like to get out of here.

D: Okay. If it bothers you, you don't have to stay.

J: I'd like to leave. You see, they have this real arrogant attitude of life. That they are supreme, and that everything else is for their benefit. They don't respect the life force. This is why they were destroyed.

J: I appreciate you looking at it and telling me the information. I didn't want to disturb you in any way.

D: What disturbed me was the cannibalism.

J: I always thought that Atlanteans were nice people, with high energy and stuff like that. And they weren't. They were highly advanced, yes, but they were very, very arrogant and very unrespectful to lower life forms. It was things that we would not understand. They were senseless. They would mutate these animals, and cause this poor animal such pain just because they wanted to do it.

D: Maybe they were bored.

NOSTREDAME: The boredom can never be an excuse to see torture or mutilating and maligning people.

J: Right. They went to a place where there were natives, and they captured him and smoked him and ate him. And I thought that was real insensate.

D: Maybe everything was so advanced that they became bored.

J: Probably. I get that feeling.

D: And these were sports to keep them interested and entertained.

J: Their minds had evolved to such a point that nothing was a challenge anymore, so they wanted to try different things. The librarian is telling me, most people on Earth think of the Atlanteans as a high-energy people. But why was their continent destroyed? It was because they misused the life force, and they had to be destroyed.
