

## History of the Website

**EL MORYA:** This is an unprecedented time of the Judgment. What you read on this website is not what you can even understand. The Great Central Sun is the sun behind the sun. This is foundational teaching at the Summit Lighthouse and yet from the statement of the typist, you see, that this is an unprecedented time.

**Typist:** The website was begun by El Morya to basically talk about the teachings no different than before at the Summit Lighthouse. Alpha decided to oust him. Elohim Mighty Cyclopea would be the one to determine the daily postings. At the point that Alpha was having to go elsewhere, with a copyright of "Alpha & Omega Communications", what happened subsequently was that Mother Mary changed the website to be "Gospel of Christ Mission".

You do not understand that if you have a power of the 1 in the earth as the human, that the power of the Great Central Sun is 1,000. With Alpha and Elohim Cyclopea from the Great Central Sun to be directing the website, you do not comprehend the magnitudes. You have no understanding that when you hear the word of Surya or Maitreya, that this is from out the Great Central Sun.

When you hear of the workings of the Lake of Fire, and you never heard about this from the teachings before, on the second death of individuals, you see, this to the human is "beyond the beyond". How can you possibly understand this! The second death of someone after thousands if not millions of years of reincarnating?

**EL MORYA:** The Summit Lighthouse did not go to the Great Central Sun.

**Typist:** El Morya was pushed out of the way.

**EL MORYA:** *Pushed?* It does not take but a hiccup to get me out of the way if it is Alpha!

**Typist:** It was because Alpha wanted me to make calls for him from earth that I began this journey to the Great Central Sun! So this website is full of material you cannot understand, and you will never understand. How is it possible that I am talking face-to-face with Cyclopea? This is Elohim! What you normally associate with are the Archangels!

**NATHAN the Judge:** And so many of you mistaken that the Archangels have a similar power as the Elohim, and you are mistaken.

**MOTHER MARY:** The judgments however historically did occur albeit without visible follow through. The Judgment of Helios has been of such an ordeal for want of his Lord God's direction coming through on the judgments that he would pronounce again and again.

**Typist:** In such a working, what they do "normally" is work in the context of the hundreds of years or thousands of years, and simply as a typist, I cannot explain to you what they do.

I have personally said to Helios, "Can you for a minute stop thinking in 100 year increments as you are not relating to what we need on earth?" How many times have I said this very type human questioning and you can feel they are rolling their eyes as I obviously

cannot determine what Alpha, Elohim, Helios will do, although I might make such a statement to them.

Therefore what you read on this website relies on what you knew from El Morya from the Summit Lighthouse.

**EL MORYA:** And he did not go to the Great Central Sun.

**Typist:** What will help you to understand would be forthcoming in the Adam & Eve story by Moshe, the Mother Mary teachings on prayer and the word, the foundational teachings to include on the Great Central Sun. You say, "I don't believe this!" You yet do not understand the importance of the Adam & Eve story about the casting out of heaven of you and me! These are power equations that you in serpentine thinking or mechanical religion or rationalist mechanical thinking are, simply, not able to know who you are.

**MOSHE:** It is not a matter of belief however. You would need to try to understand that this is your history. What intelligence you would verify these truths with, will be the unconscious mind.

---

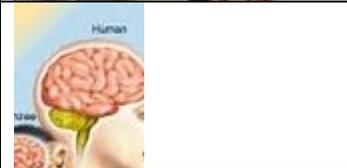

Q. What is the unconscious mind? We know of the heart, soul and conscience intelligence. There is also the intelligence of the unconscious mind. Primarily it is what knows the Atom. When you hear the words, "I've had enough of this. Enough is enough." This is often the unconscious mind.

**FATHER MALACHI:** You might ask, how about the Darwin creation story that became the standard story in the public schools. The religious did not fight it as they knew the Atom. They knew it was wrong to be calling humans coming from animals.

**NOSTREDAME:** **The humans did not come from animals, coming first from fish. Brain sizes do not change.**

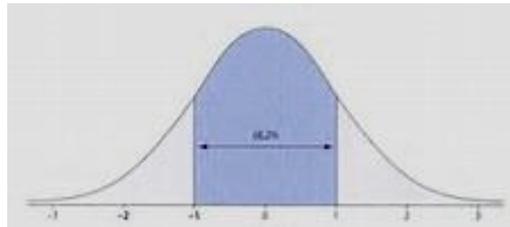

**Nancy of Oregon:** Some souls are over a million years old, still going the route of reincarnation. How is it possible that our brain looked like the fish several million years ago? Can you believe the idea that, we as a people "evolved"?

<p>Our soul is encased in something like this?</p>	
<p>Then over time this? The soul knows Darwin is lying.</p>	

**EMPEROR LeAMTHE:** This is the bell curve. If you are able to tie into this intelligence, you can see many spheres or octaves.

**MOSHE:** Mothers and fathers have this intelligence for raising children.

**MOSHE:** The tail end of the curve is to parents: the deep end. They do not teach children the wearing clothes of the other gender in Judaeo-Christian.
