GOD'S WORK IN THE WORLD

GOD'S ACTIVITY WITHIN our very minds and wills is mysteriously wonderful beyond words; but it is not extraordinary. It is, in fact, routine; an every day affair, so prosaic as to be taken for granted or completely overlooked. What rivets our attention is the extraordinary. Can God work miracles in the world; can He do the really extraordinary? Can He work outside the order of nature which He has established? Christ's answer to the disciples of the Baptist leaves no room for doubt: "Go and relate to John what you have heard and seen: the blind see, the lame walk, the lepers are made clean, the deaf hear, the dead rise again, to the poor the gospel is preached." At the moment the Baptist's disciples had come with their questions, Our Lord had lavishly displayed the divine power: "in that same hour, He cured many of their diseases, and hurts, and evil spirits: and to many that were blind He gave sight."

FATHER MALACHI: At the baptism which means the beginning of your mission in bringing about the Christ Light, it does confer upon you an extraordinary Light.

Science would seek to know those laws that imply a Big Bang creation story to exist or not, or whether energy and time can be measured to capture a scientific use. However they will not ever be able to harness the Light and power of Christ Law.

FATHER MALACHI: It is by a grace that this occurs that you might bring people to a greater Light by being that Light, albeit it requires that you are pure and clean.

That Light is law. The more you learn this Christ law, the more Light it is that you become.
