

Reality Check

Tramp Demon

Typist: I have been given permission to post this for anyone with tramp demon. By the way, this is the compass plant that faces North. We use it for healing in true north principle living.

Excerpt—

Now you see how it is that we spoke about how they had been poisoned and needed to take some homeopathic medicine to remove the damages. I would like to address the situation of the aliens. There has been a problem with humans encountering aliens, and so what to do about it.

I met the aliens myself, they came to my home to speak to me a number of times. So they are about alien sex, there is the use of the whip, there is all types of strange sexual behavior that the aliens brought with them as a way to tie people to them.

FATHER MALACHI: The people there have the tramp demon. They have to get serious that they recognize that they when offered an opportunity to go higher, recognize this higher vibration and tenor. So I ask that anyone of these to write a confession letter and to begin to work down the demon percentages of the influence of these aliens that were there so “heavily”.

Typist: Another homeopath may have a different prescription. However this will help with any alien infestation. *The medicines.* The energy of a tramp demon is to stay unmarried, or when married, have sex with other married people. Tramp

demon is a way to describe the kundalini energy going down to the base kinetic. The medicine I recommend is **Graphites 30c**.

Its keynote is “indecision”. What is the energy rising as the raising of the kundalini? No. The energy is going the *down* way and not the *up* way. This is made from graphite. I would take it for 30 days.

Main Keynote of the 19th century homeopaths: **Indecision**
Others: Oscillating energy pattern. "I am unable to decide about anything." "I am inclined to weep."

The other medicine is **Carbo Vegetabilis 30c** which is made from charcoal.

Main Keynote: **Must have more air.**
Others: "I'm having difficulty breathing." "I can't remember as well as I used to. My thoughts are slower."

Its keynote is “must have air”. This medicine is for the suffocating effect of aliens with the smothering sympathy. Weighing heavy on the blanket. I met the aliens myself. The conversation is “wanna have a good time”?

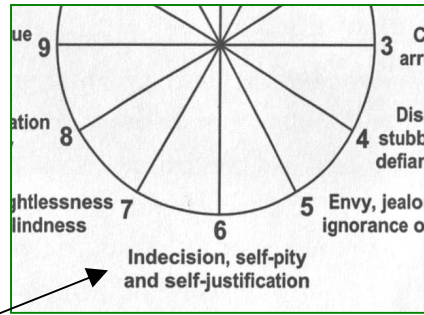

They come in layers. You talk to one layer, there is another layer behind them. And they come with a sympathy for self, sympathy for “feel-good”. It is a heavy smothering *love*? No it is sympathy, wall to wall, you cannot see another your way to turn. You cannot actually live to feel-good but this is their temptation.

The 2 medicines can be spaced out 20 minutes, and this one taken also for 30 days.

The false hierarchy has aliens, astral beings who are sent to you to make you a member of the false hierarchy and astral realm. I am familiar with astral viruses and aliens especially as I read *Hostage to the Devil* to recognize the astral plane. It is as Father Martin said in the book about the radio announcer, he said: this demon possession is more common than you think. So

that understanding expanded my mind. He noted that the producer of the radio show had a demon.

Now the perverted quality of the 6:00 is indecision. It is depression. With depression, sexual abuse, this is the 6:00 o'clock line.

It is living at the bottom of a well, and having to climb out. And that is by doing good works to cheer other people up.

MOTHER MARY: Going higher means therefore to serve others in the Light.
