

THE NEW US CONSTITUTION

March 2018

Fighting For The United States

COMMENTARY: There was an overwhelming support for the Star Wars shield put over West Aptos and West Alps. We will look at where are other key areas.

Typist: You have to be willing to fight evil in the United States. You have to learn to act in lightning technology such as Napoleon described it

MOTHER MARY: Especially over what are traitors. Clearly these government officials who work for Red China to kill seniors are traitors.

Typist: You look for the diplomacy and bribes he hated. An aristocrat would open his mouth over some special interest and Napoleon would cut him off. At times, it does mean taking the law as a Deputy would, that something is not right, and you sense someone evil has been put back on the street and you have to act.

**Napoleon could not deal
with diplomacy or bribes.**

COMMENTARY: This sense of fighting was lost after the Civil War where you had to fight for the rights in a free country.

It is incumbent that you see that you cannot leave the fighting to someone else to do.

Typist: Built into the Constitution is that the men will have military service at age 17. However you can see the inroads of the “nice person” personality called Noxious Coonhound who would in coffee personality and woolen suit would have a knife in your back and to turn it.— in the Grease-the-wheel plans and NAFTA. These are taken as sound theory, and not so sound after implementation, yet there is no overturning of this. It was full speed ahead to turn the United States into a Hong Kong colony.

Napoleon had sent out a daily bulletin to the troops. Second, he had the newspapers to write of the nationalism of France to unite the lands that he had conquered. It was said of him that to him nationalism would unite the people and not so much particular religious or political beliefs.

Napoleon conquered Italy, Poland, Belgium, Southern Germany, Spain. Of the nations, Poland remained loyal followers of Napoleon to the end of his reign.

What does this say? It says that the Polish people recognized the love of the Queen of Heaven to replace the Pope and this is what made the people follow Napoleon to the end as this is exactly what Napoleon was trying to say in the nationalism, that the old patriotism was turned from the old to the new in nationalism in a reverence to the Queen of Heaven for her protection of the nation.

COMMENTARY: The new Constitution will have this understanding and of the cancer prevention laws that you act in lightning speed at determining criminality to “take it out”. The

people themselves must guard this land and think in nationalism and not globalization.
