

THE NEW US CONSTITUTION

March 2018

Legal Education

“Under Roman law, it was the housewives who tried the cases.”

COMMENTARY: Law has moved since having words such as fraud that require making a study of to be a judge. However beyond a definition and some precedent, law is not barred from the citizens.

Typist: The Romans would say, we know the law, what we do not know is the evidence and lying. Law is something all citizen must have access to. These women were given the laws, and this is where the US Constitution is given to whoever are these supervisors of 100 or Deputies, or State penitentiary grand jury and the military studying law.

Napoleon: They serve in “jury duty” once a week. That can change over time or stay the same. They are hidden from view. At a higher level, judges will be trained more as the French lychee monopolies, they do not pay for their education, they serve in nationalism for 10 years afterward, going into the area of SEC chief, court-martial boards.

Typist: Of utmost importance of this law system is the Mother Mary’s Cosmic Clock. People who are to administer

law would study the Cosmic Clock as it is how criminality cycles.

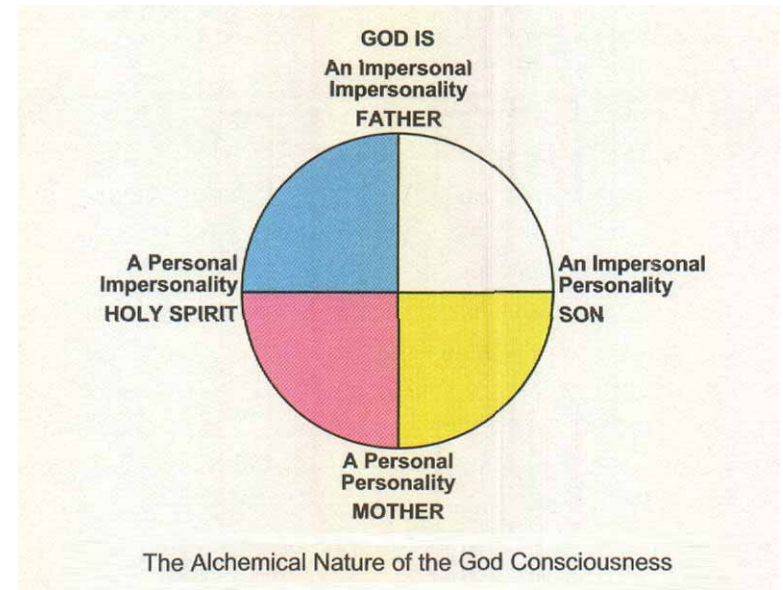

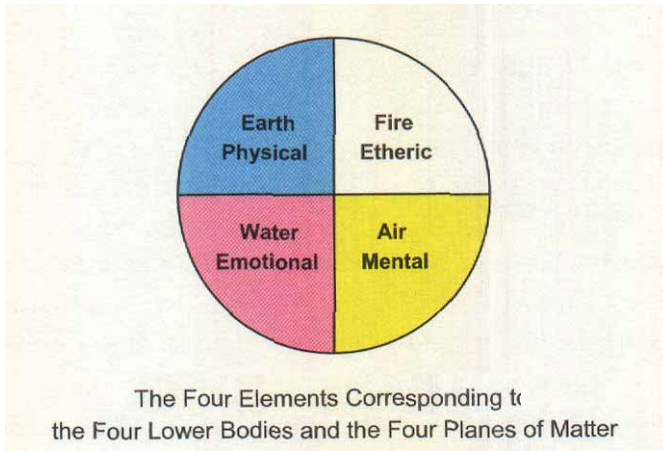

COMMENTARY: Often you hear of legal cases where there is sympathy and character assassination toward the one injured. This entry into the courtroom puts him at a severe disadvantage. And it is by recognizing the various stages of a court case that you can “move it along” its natural cycle that is needed. The judges must look at the damages done on the 9:00, they look at the jurisprudence at the 8:00 and no longer consider the pleas of an O.J. from the mental quadrant: the 3:00, 4:00, 5:00.

A case can be controlled by the paid-off judge. And the entire proceedings beforehand actually has to be halted by the 11:00 o'clock line considerations.

“This is a drug-addict, can we put him back on the street?”

The 11:00 is where the cancer-prevention laws are, this turns a civil case into a traitor case. And he could be ordered to be killed.

This is what the citizens have a right to, that they not go to the FBI and only be told that hopefully you do not see the crook again.

Typist: When you bring in a case, you see where was the origination of the crime in the first quadrant.

COMMENTARY: You must focus on finding criminality and not sympathy and character assassination for the wealthy in the next two quadrants, the mental and emotional.

Typist: Once you see the cycle, you can then find even more evidence as you are looking for the cycle, not so much for alibis and excuses. The 5:00-11:00 o'clock line axis is one of the most violent lines on the clock. For example XYZ was last seen holding hands with ABC in central park. He in abject ignorance will not accept what she has to say, they return to their high rise across the park. In 24 hour she is dead in the park bloodied against a brick wall.
