Insurrection Lightning Laws and 11:00 O'Clock Laws

NOSTREDAME: By the time a court case goes to the 11th hour and the 11:00 o'clock line, irrespective of evidence or prior considerations, the Judges trained in these laws determine whether “to put the criminal back on the street.” This goes for people and entities and situations. What is non-compliance is treated as contempt of court.

If there are none of these judges locally, they call the Court-martialing court for a military order who when they meet decide to kill or wipe out in 10 minutes.
