

Canon Law

Cosmic Law Purpose

MOTHER MARY: We have removed his name¹ over the documents as under Cosmic Council inquiry, he does not understand the foundation of law is moral law. How you live your life is reflected into the public life and the justices cases.

BURNJEH, Physician: Might I add that in homeopathy we have people who study long on the various written material of proving symptoms, however, often the smallest book-learner does the most healing as their heart is in the right place to heal, and when your heart is in the right place to deliver the legal system, you yourself must not be unseated or deterred by these learned ones from Harvard or Yale but to keep on with the judicial path where you are delivering true equanimity.

Typist: The Cosmic Clock is both a personal gauge of criminality and of help to you as legal professionals. What was a fighting of the civil war does not equate to a fight for justice where there be setting brother against brother in the setting up of the unions.

The Cosmic Clock is a lifetime study. According to the Cosmic Clock, the 8:00 is the line of God Justice.

The initiation of the 8:00 is one of overcoming a sense of injustice. One is angry, one has the frustration and anxiety.

The passing of the initiations of the 8:00 is one of having an objective viewpoint or what is Gautama Buddha's teaching of the Perfection of Indifference. Indifference is not

¹ Judge Holmes.

the “apathy” of the current legal system costing so much money, taking so long to arrive at justice.

The Cosmic Clock Mother Mary gave in 1975 at Mount Shasta. Without it, you cannot arrive at a legal system because the present legal system is based on privilege— for you have not the path of humility of the Cross, the passing of ones initiations.

The 8:00 is actually a very powerful line. It is not blind. It is in the emotional quadrant. You perhaps have heard of the woman who seeing a child underneath the car about to be run over, did pick up the car that the child be rescued from underneath.

MOTHER MARY: The superhuman strength to pick up the car is the alignment with Cosmic purposes.

Typist: One person that you have heard about was Sergeant York. In World War I, he went about killing the enemy without squeamishness. He was able to see God's Will. His foundation was the farm that was where he practiced his shooting.

JP Morgan who saved the banks and economy said, “I am the same Deputy as Devery but I was gone by then.” He said that had he knew that the bankers met at Jekyll Island to created the Federal Reserve Ac, he would have put the bankers into a room, and shot them dead.

Devery was the Deputy of New York City Police. He said, I talked to everyone, the merchants, the prostitutes, I kept everyone in alignment. This is what JP Morgan did too, listen

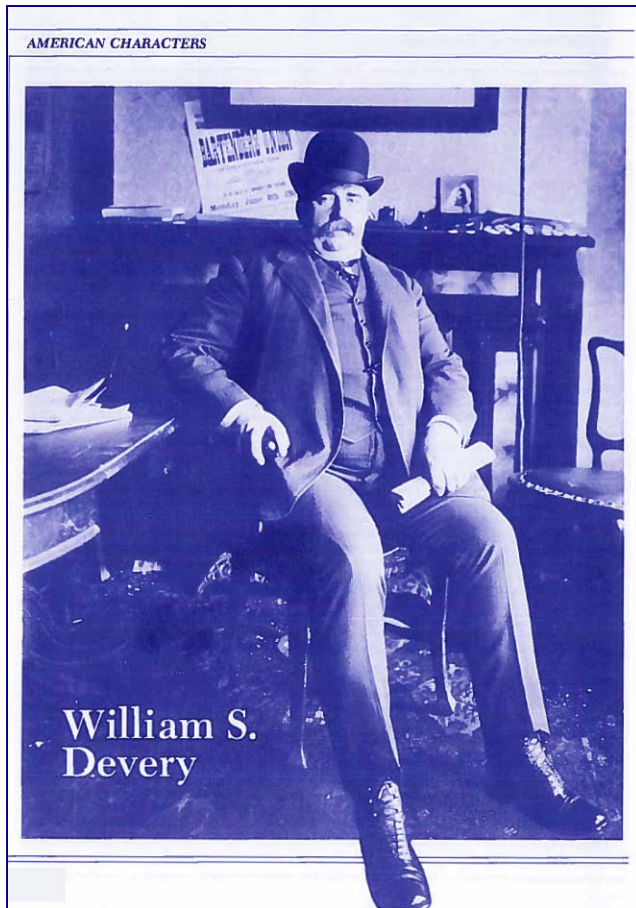

to the people, see that no one was going to get out of alignment. This is a cosmic sense of the law.

But the gun of the deputy or the bench of the judge is only as good as the moral fiber of the person, so the old system must pass away at this time. It is a catapult into civilization! The 12 lines of the Cosmic Clock represent Solar Hierarchies. They do not change as fixed stars is how you can see this.

The left-handed path to the 8:00 is the 12:00 or the abuse of power— this we know of the judges and legal system. The right-handed path is the 4:00 of God Obedience. When you obey the Ten

Commandments and you determine, “I will enter the initiations of God Obedience no matter how difficult,” you understand cosmology. As Jesus Christ taught, you cannot turn one hair black or white. This understanding of Cosmic law is not seen in the current law system. It is as if NAFTA comes into people’s lives, they look

skyward, and what they compute in true justice is to say, God is Good, God will deliver a holy people.

When an executive found out that 9 women had been made prostitutes for the transfer of the US as a Hong Kong colony, he said, “Hurt not these little ones. It would be better if you had a millstone wrapped around your neck and be thrown into the sea than you hurt these little ones.” This is a sense of justice that wells up as a great emotion of the Prince of Peace.

I made the comment that the Queen of England prays for England. In truth, Jesus Christ is very close to her. Wherever my typing might allow it, he does inquire about her.

MOTHER MARY: These are cosmic laws that you would then see on the Cosmic Clock as what is true jurisprudence, how you conduct yourself as a legal authority.
