

# Ascended Masters

**The zebra finch is a songbird that seeks to establish territory through sound. It gives forth a high-pitched whining sound, also will exhibit a hissing sound.**

**These birds adapt to circumstances. Their nests are found in cavities, scrub, low trees, bushes, on the ground, in termite hills, rabbit burrows, nests of other birds, and in the cracks, crevices, and ledges of human structures.**

**Their songs are not to be confused with bird calls in birds who migrate in flocks in making calls for alarms and contact with other birds in community. Theirs is the song to hold other birds captive and holding territory.**

**The demon "Agent advocating finch" is seen as the modus operandi of the Twelfth Planet members. They seek to sing a song of seed of Serpent through color and images to attract members in an hypnosis. They use our terminology and are betrayers, saying they are the ones bringing in the Golden Age of Saint Germain.**

**They lie in saying, we have "different" Ascended Masters than you do, when there is only one, not two hierarchies, of the Great White Brotherhood.**

**They lie about their sponsorship and having Ascended Masters being there. It is as if you are wearing a police uniform and appear at a person's home to ask entrance and they enter your house and they are the robber.**

**The demon possessed are adaptable. And it is for power and gain to bring in people into their organization as if it were a mating call of birds to trap the unwary and then to take advantage of them.**

**Once you are at the Twelfth Planet group, you are obligated to adapt as they do, to change your ways to accept ideas that there is now one to replace Saint Germain named Omraam with his teachings on the White Brotherhood in Bulgaria when clearly this is not the teachings of the lineage working in America. Omraam went to his second death.**

**They speak over and over their "song" until they believe their lie as truth. They build lies upon premises based on how far out from reality people will accept and then they repeat it over and over as their birdsong.**

**They think violet laser light is real If they say long enough,. There is no such dispensation as violet laser light. What adapted and imitation version of the violet flame they do goes to the false hierarchy of the Twelfth Planet that is absent sponsorship. They will say someone has ascended from the Summit Lighthouse, and when it is known that he had not ascend, they quickly retract that information.**

**They are outside the hallowed circle of the Guru chela relationship. They cover it over with saying, "We have different Ascended Masters than you have" when they in truth, serve the Twelfth Planet.**
