The demon "Conceal grasshopper" is one that will take on the shape and colors similar to leaves. The long-horned grasshopper camouflages itself. It has long antennae that are longer than his body.

A staff was asked to leave the property. He was not able to pack his bags to move though he would be incurring 1,200 years of karma each day. Others on staff walked right past this. They said, they will learn the hard way, let them learn. It is let us do evil that good will come.

He is one who tries to hide by following what others around him are doing. He is on the constant look-out to see who is watching him that he might not be in the way of responsibility.

It is what happened in the Iraq prisons in the torture of the prisoners. Later before the tribunals they would say, everyone else around me was doing it, they thought it was fun, I did what they did. They had taken photos of bodies piled high of prisoners while they stood with arms folded over their chest to show their superiority in the photos to send out as greetings in the mail from Iraq.

This is evil.

He does not stand for truth. He will let whatever goes on around him continue on as if nothing has or had happened. These are ones that Hierarchy will speak directly to with the directives and they say, "I don't know anything about this."

What could be more a camouflage than to say this?

He is just a part of the crowd, he says, ask someone else, not me. They are timid, they go along with whatever others are doing. If what all

**are doing is to bench Saint Germain, they will bench Saint Germain, they go along with it.**

**These say, so what, I was not in the Iraq prisons, rather here I am on staff, I just go to work each day. What crime is there?**

**Not all with timidity has this demon. It is a demon that shows no concern for others suffering. It is a failure of knowing that a World War III could break out without doing any decree work for months and months in the first sign of trouble that turns into years into the future.**

**These benched Saint Germain! They do not look for the daily initiations, do not know of the 7:00 line of soul-sensitivity.**

**This is demon long-horned grasshopper when you have sold out the soul and have no soul to tell you something is wrong that you could bench Saint Germain and worse, the staff do not meet to see how they can unbench Saint Germain.**
