

Ascended Masters

The demon "Half-leech worm" from the ringed worm is partially what you know of as an earth worm that has its function to aerate the soil and a leech as you know for blood sucking in medical patients. It is a worm, half-leech, half earthworm. It is a worm that has segmented parts. Each part has its own heart and major systems and then all the parts comprise the whole worm.

This is the demon to be taking the teachings and making it half-Ascended Masters and half-astral. It is the work of the demon to put on the altar a portrait of Saint Germain that is half-Saint Germain and half-astral-messenger at a false hierarchy group.

Headquarters did not put the money, talent and focus on the study groups as they claimed. They have an empty events page. They do not have the listing of the study groups on the website. They can lie about having 250 study groups and this splitting apart of the study groups from headquarters is what we have described as one of a divorce between a married couple.

At the excommunication and dismissal of staff, it split families apart. What was the result, one supposedly stayed in the teachings and the other left the teachings? No, both left the teachings. Both had left as the SPP (Suern Persecution Priests) takeover was one of leaving the teachings and putting in a foreign mission.

At one false hierarchy group, they divided the I AM Presence chart into two. The two messengers stand by each of their respective charts when they are at the altar. They consider a lifestyle not of the sangha, it is me and my own, it is then one of each on his own. You also have the

splitting of the I AM Presence from the soul by taking the Holy Christ Self off the Presence chart.

It is the disintegration of love that this demon does. It is as if there is a smoke alarm going on in the house that never stops. It is loud, obnoxious and everyone is feeling comfortable and must leave the house. This has occurred at the Summit and there is not the comfort flame extended to the Keepers in broadcasting decrees for their services.

There are some who have this demon who are not yet coming to the Archangel Michael Assignment. They do not feel an oneness with the Gurus. They do not hear the call of the loving parent calling for the child to come home.

The SPP takeover was a mission to divide and conquer as you saw in a few teaching center of shouting and pushing forth the voting without a consensus. It is the demon to break up into small pieces as you see in the worm, it has many segmented parts all on their own.

This demon is one of estrangement. One is not able to recognize the Guru, his teachings, his organization, one will go ones separate way. These voices are treacherous. As El Morya said to those who left the teachings or split off on their own, it is not wise to leave off the decrees as you will have this karma to balance into the millennium.

Thus The Summit Lighthouse lost its dispensation to carry the lineage of Sanat Kumara.
