

# Ascended Masters

There is a demon called "Noxious coonhound." It is not the main demon for those in first Exorcism, only one. However those not in the first Archangel Michael Assignment nevertheless practice the ways of this demon.

This is false obedience of the 4:00. It follows evil for no other purpose than to obey. They have the enormous karmic percentages of 40% who went to one false hierarchy group, the 30% at another one. And they say before the Karmic Board, "I obey" "I was loyal" "I was obedient."

He does not change purpose though there be reasonableness shown. One can say to him, you are following after false teachings, you cannot take the Holy Christ Self off the I AM Presence chart, you have there antichrist. You try to reason, they will not follow you out of the false hierarchy's teachings.

Even with consequences shown to them, they do not behave. These are the true Satans. They follow the leader of Lucifer and seal that vow in blood for no other reason than they will obey to the death of the soul.

These will be mild mannered. They will appear under emotional control, it is deceiving as what they do is evil to be following an evil leader or evil mission.

These will have trouble separating themselves from their creations. They are loyal to their artwork, their book writing. They will defend it with their soul. They will sell out their soul for their creations. When God tells the Israelites to burn old records of the past, these are

**not those who will obey. These are the ones who are the book writers or artisans who will not see that their art or writing is not at the level of Ascended Master workmanship. They are laggards when their work products are of the past and when we would desire to move them forward to a new level, they will not move to destroy the old creations.**

**They do not see the need to sacrifice their creations. They will follow whoever is the leader and not sacrifice into the unknown. They lack faith in seeing. They do not see those who might be trying to move them along in their stubbornness. They cannot live in the future, they live in the past. The past is strewn with records of their creations as who they are. You cannot destroy these as you would be destroying them. Only they can destroy them. This one must see the demon as not themselves but outside of themselves that it be cast out and for a new behavior to live for the future of what one can become. He must destroy the past photographs one has of oneself, destroy the memories of the past.**

**This is one who is one loyal to purpose, he is stubborn, will not change his position. These are projections not to change of the demon and the thoughts may even say, "You can't change me. I'm the way I am."**

**This is one who looks for his historical family tree for his identity. They do not live for the future of becoming Christ, they do not live for the Holy Grail or crystal cup. Their future in what they will create even is based on how something had been done in the past and to refine it but not be as one going to the etheric Retreats where they will be asked to destroy their old art or writings before they can return for their next lesson. They go to the etheric Retreats, they return empty-handed, they go not again.**

**These in the demon are not ones to move Christ Church forward. They live in the past and for the past. They do not see the vision of the mission into the future. They see the way it was with their past persecutors, and they will only recognize that. It is as that one who said "I do not think this is divinity, these are invisible Ascended Masters" who only would go by the Pearls of Wisdom language usage when a message is on organizational matters and not a writing of the Everlasting Gospel.**

**You can see there is more than one definition of "laggard." It is one who will not move with the vanguard activity. They do not recognize it, neither will they see that Hierarchy will not bend to their will. They do not follow the past, they plan for the millennium. Those who have the stubborn beliefs of yesterday are not able to see that Neptune went into Pisces and we will need a choir for this generation. If it is not already stored into their database of knowledge, they do not move to outpicture the mission.**

**They do not see the crystal cup, they hold stubbornly onto the past. These have the demons that they have, whether it is from some ritual of initiation of the black forces or from the false hierarchy groups. They will be loyal to the demons as they think it is "the standard" for calling for another's physical and final judgment." They are ones to say, this is what Satan and Lucifer did so this is what we continue. They say, "We have always done it this way." They cannot see evil. They refuse to look at evil, they do not think they themselves do evil. They only ask, "Am I obedient?" Thus the projections of the demon says, "Be obedient." What could be more reasonable? They will not come to the Archangel Michael Assignment. These say, "The Messenger never did this. I'm not coming."**

**One must then guard against false obedience. One must say, obey what? I will be held accountable. What are you asking me to obey?**

**These are ones in the practice of choosing the lesser of two evils. Why? They do not seek to find truth and honor, they seek to obey.**
