

Ascended Masters

The puffin razorbill is a bird. These birds are capable of holding sometimes over a dozen small fish in their bill as compared to other birds that can carry only one.

The "Wenching puffin" is the demon in those who take the teachings and carry them away and claim it as their own. The demon has those who left the teachings not see that they are accountable for misleading the incoming souls. How is it that those who went to the Twelfth Planet group can continue to stay there when we have shown that the Wesak dictation was not by Gautama but by an alcohol entity?

They say they have other Ascended Masters than of the lineage and that was how they could take our teachings and pervert it as they will. When did they come out with this statement? It was after El Morya asked them to dissolve their organization. So you see how it is, those there who say they serve the Ascended Masters speak from demons.

These possessed of the demon have no allegiance to hierarchy. They are not the chelas, for how can anyone counter El Morya when clearly this is an alcoholic entity there giving astral dictations and they have massacred the portrait of Saint Germain.

When you see that portrait, does it not evoke a sickness in the stomach? That is your soul chakra. Why does the soul not have feelings? It is covered over. There are demons in control.

They say such blasphemies as, we have other Ascended Masters than you do. There is only one hierarchy of the Great White Brotherhood. There are not two.

When you heard that The Summit Lighthouse called El Morya a zen master, a Himalayan master, a Tibetan master, there is a sickness in the soul normally. With the demon, the soul is so covered over that one has no soul sensitivity to recognize these are false teachings. Nor does it know that this is not what the Summit staff should be saying. And why would you not feel soul pain at knowing that the organization lied about having 250 study groups? Or they say, we have over 100 groups participating in the violet flame vigil?

Those who would participate in these lies have this demon. It is also a coveting of the church for ones own personal use. It is a using of the organization as a means to bring attention to oneself. The publications for sale are to pay ones salary. It is keeping the altar to oneself for selfish reasons. Glamorizing oneself as a proclaimed messenger, giving the cup of cold water in Christ's name but to glorify self. The sympathy is a lie, it is to tie you to the guru worship not bring you to Christ teachings.
