

Ascended Masters

These use the Judgment Call of Jesus to enact suffering upon others. These use the Dweller Call of Jesus to enact suffering upon oneself. They do not see the Judgment or Dweller Call as love but as a weapon. You see the pinchers that the whip scorpion has? It is armed with tools of war.

The "Whip scorpion" is a demon in which he has taken on the habits of this demon having imitated others.

This way of the whip scorpion is not of Christ Church or mission. The ways of this demon must be removed by communities consciously. They must read scripture and find the love of Jesus, the mission to love one another. These have not shown that they know the mission. They have these ways of persecution yet and this has never been the mission. These demons came into Christ community and have since lodged in some that need the exorcism and with others, lodged in their thinking as a mission and purpose that they will continue of outpicture these demons unless they consciously remove these habit patterns and behavior.

These see the Blue Ray as the black ray. They do not know El Morya. They do not recognize him, they do not seek to learn of the Ascended Master El Morya. We can say, sing to El Morya, you do not know him, why not sing then. They do not sing. They hold on to their demons in pride. They think themselves above the others. They are not humble to look for the divine Chohan. They are the ones who think a high opinion of themselves and are confident not in scripture but in their own human opinion.

We have shown you that when you are in the presence of such a demon, you do not give the Judgment or Dweller Call as intended as an abiding peace of the Prince of Peace. It is given in fear. These practice bigotry, prejudice, "we" against "them." We are chosen and special and you are not. In the SPP (Suern Persecution Priests) or inquisition persecutions, it was saying, you are the chela, we are the guru. In not broadcasting the decrees to the field for many years though others voted for it, it is the attitude that the altar belongs to the few and others should work harder to become a staff member if they want to enjoy the benefits.

One of the characteristics of this spider is that though it be a spider only, it is considered a scorpion to sting, to do damage. It has a whip as its tail.

Some see the teachings as this demon. Throughout the student body, you find some think these teachings are about fallen ones, judging fallen ones, fighting fallen ones. These are suspicious of who are the fallen ones in their midst. They practice the blacklisting of others. They write entire series of books on fallen ones and evil. They resist removing these offensive books that more than one Ascended Master has asked to be removed. They are not the Everlasting Gospel in tone, in vibration, as they think. These think the Messenger calls for the final-and-physical judgment that was intended to move a cycle to the 9:00 to be warlike and cheer at exterminations.

They do not know what is the Christ mission. They do not go and find out what it is either what is the commandment given by Jesus, love one another.
