

Elohim Cyclopea and Lord Maitreya

Beyond Individualism Series

CYCLOPEA: You say, "I do not desire to ascend. So, why am I doing this work?"

You are born with purpose in divinity. When you separate yourself out from the world and you consciously identify with the universal Christ, you are then building upon the ages.

No fallen angel or antichrist way can deter you from living your purpose in divinity. Do not choose to continue to live in the manner of this decade absent the Christ Light and walk.

Nevertheless face a realism. Take responsibility. You are accountable. You do not deny what is real before you. You take action on what you are responsible for in your life. You ask in this judgment, what is of realism and what is your interpretation of reality.

LORD MAITREYA: Practicing individualism is still one of becoming tethered to the universal Christ. The community is part of who you are. What community you identify with determines your future.

In your embracing of others, you are bringing them along in Christ. Thus those who have aided the false hierarchy groups have said before cosmic council that they will remove their support where they had given it to the fallen ones either in money, land, buildings. You must go to court and sue if you need to.

To some, where it was given specifically to do by Alpha or another of hierarchy, where they have not done this, they cannot before the Karmic Board in the next life say that they were ignorant, as you cannot deny these records of hierarchy having written or spoken to you.

Where there had been advice to move, divorce, or seek counsel from demons, this will appear on your record before cosmic council and affect opportunity in the denial of Christ help, where there is even denial of this judgment as ministrations to you. The Karmic Board looks upon these situations and for aided fallen angels or aliens and determines that you will then have a

subsequent embodiment that you will go the way of the fallen ones as that is your conclusive allegiance.

You do desire this, as you would then be tied to fallen angels century after century. What damage they have done to you this embodiment to cause you to deny Christ does not change. This is a serious choice that you make. Rather, return to the Christ path than to be as Adam and Eve whom it was not only not finding the teachings but who do you serve now? What are the systems you operate under now? What about this community you belong to now?

CYCLOPEA: This can mean a life and death struggle for the soul as that is the incarnation determined by the Karmic Board.

It is then for you to seek to identify the goals of the false hierarchy as the death of the soul of those in embodiment who serve under the fallen angels, aliens, sex demons and other fallen ones.

See how it is in one of the false hierarchy groups. They state this goal clearly, that is, for the death of the soul. Where this goal is not so clearly seen and you do not hear from hierarchy, ask then, what is their acting in this material world about? What is the worshipping of the I AM Presence to answer all your questions about? Why do these seek a religion that is absent the Bible for you to follow?

It is to tie you to the fallen angels or aliens acting as your I AM Presence. And you obey no differently than those in history who followed whatever their leaders say as in evil-doing.

I speak to those again who have said, I use the Bible and yet you say, "This is not Mother Mary speaking." Who can be closer to you than her in hierarchy? Why is it that you would deny Christ in true hierarchy?

At this stage of individualism, centralization is outside of any particular person. As the power of the self asserts itself more strongly within a few individuals, and at the same time outer circumstances pressure these individuals into developing a sense of superiority or of relative isolation (and perhaps alienation) from their community. The consciousness of these individuals begins to centralize itself.

The more 'special' the activities of these persons and their responses to social pressures, the more insistently the feeling of internal centrality is experienced. But this feeling remains conditioned by outer circumstances and activities; it is attached to them, and the result is the development of an ego so

concerned with what occurs at the circumference of the field that it cannot be aware of what is at the root of this 'I-feeling'.

What the ego believes to be 'freedom' is, nevertheless, anarchy. It expresses the negative and catabolic aspect of civilization; and it flourishes in a paradoxical way in our modern mega-cities—paradoxical in that ego-freedom soon turns into a tragic state of bondage to the compulsion to feel free, independent and self-motivated at any cost.

The true kind of autonomy is only found in the [soul tethered to Christ] self. The self does not need to 'prove' itself free and autonomous. True selfhood does not refer to consciousness or relationship, but only to power—the power to be what one is [as a divine being].

CYCLOPEA: We are concerned that those in embodiedment, when you become an Ascended Master, that you are tethered to antahkarana, the web of life.

You become a "community member" when you do your 40 Michaels, 36 Astreas, your Mother Mary rosary. You are then tethered to this protective function as your "first order of business" before you contact physical counterparts or you try to use your own human power to figure out how to meet what this author constitutes as the danger to the biological person, though we would consider it more—that you protect not only the physical but your spiritual beings.

LORD MAITREYA: What humans have that is uniquely for them to do is to make the call, especially the judgment call. It is that humans are created as the lower creation from the etheric octaves and require this form of justice to eradicate what are crimes against humanity.

CYCLOPEA: When you enter into this communion daily with doing your 40 Michaels, you are not only calling upon the Archangels, you are calling upon the Elohim as this is the "community" that you must find yourself. Absent this tethering, where do you go? You identify with the world's community, do you not?

In this judgment those who refused to act in the will of God find themselves become failures of a Mystery School. They go where there is the anger spent and the gnashing of teeth.

Yet, this power does not operate in isolation. It represents one small but precise vibration (or tone) in the immense chord of mankind. But this small tone vibrates at a level that transcends the mind and its techniques and categories.

CYCLOPEA: Let not a day go by without your communion with Mother Mary or one of the Archangels or Elohim. You see, it is more than only doing decrees, but that you are putting your problems and goals before them that they help you to meet the challenges of your life. Do not consider them so removed from you. They have angels that they assign to watching over you, as this is the function of the angels. It is part of this hierarchical chain. Now, be about your Father's business.

It is the ego that brings the supernatural reality to a state of consciousness which can be formulated. The ego will in the conscious mind work to bring about moving from the farms to living in the cities, expressing their will as laissez faire.

All these activities, consciously or not, strive to raise human consciousness from the biological-cultural level to the 'spiritual' level. In their noblest forms, these activities infuse spirit into biology and culture. But this means breaking down the particularity and exclusivity inherent in any culture-whole and opening the collective (as well as the individual) mind to a state of total inclusiveness and interpenetration.

LORD MAITREYA: Some of you yet live an alienated life in that you think, you will hide behind the closed doors of your apartment? You are living the outer ego, should you go deeper, the initiation you failed will be before you. You can hide it with substances such as sugar and drugs, you will be faced with this initiation that you failed. It is a conscious choice to take what the Elohim and Archangels have given to you at this judgment and to do it without fail. You can deal with your unhappiness later. Biological happiness is not the goal of life. Rather it is survival, spiritual survival, or stated more eloquently, living your divinity.

The Mystery School is not necessarily a place that we called the Place of Great Encounters. You who have been through Summit University, you know it is ongoing Summit University practiced in continuum. Rather, it must be a

connection with hierarchy that you are thinking daily and for your weekends, how you can put in time to help, listen and put your attention on hierarchy to fulfill purpose.

Chelas have worshipped Mother Mary to the point that she makes visible appearances to them. She gives them tasks to do that further their life in initiations. *These chelas take their initiations from Mother Mary.*

You might say this of Jesus or of any saint. These chelas warranted these appearances and communion with hierarchy as these identified with this community and they belonged with this hierarchy. History shows this—Pope John Paul II was saved by the assassin's bullet by less than an half-inch penetrating his body; he did his daily rosary. You no differently have received the ministrations in this community of Light, of Mother Mary, Jesus and others.

CYCLOPEA: Where you at this judgment have been given a certain work to do, do this work even should there be loss to no longer live your lifestyle that is of the world. It could be a loss to wasting time at the mall. It might be giving up sports games that waste time. Rather, fill your time doing decrees and with trying to anchor your life with the new reality of your divinity. It could be a loss to remove your books, change your viewpoint of what had happened in the past decade.

In due time these functions will bring about a new condition of trans-human existence in which biology will be transcended or transfigured. Men will gradually lose their personal ambition their pride of achievement and their catabolic jealousies and culture will lose its collective focusing on exclusivity.

In that state of existence, love—having overcome biological compulsiveness, its culture-bred class distinctions and egocentric insecurity and possessiveness—will be able to flourish in unpolluted radiance and pan-harmonic inclusiveness. It will be the foundation upon which function of a new world will develop and be built.

CYCLOPEA: The sense of I AM can be easily taken to mean the biological survival that is "outer" as this author points out. The inner sense of the I AM is spiritual. This I AM teaching is not something that is but through a non-identification with the culture you were raised.

You separate yourself to be called out and identify with the will of the Christ lineage. It is a conscious choice, not to follow the outer ego, but to

subscribe to what universal Christ dictates. You were created in divinity that is in addition to a life of going wherever the world is going in fad and trend.

The earth will become a *garden* reflecting the many-sided inner culture of integrated human persons no longer needing wilderness to balance and redeem the artificiality of their ego-minds. The spiritual darkness of our festering mega-cities will be forgotten then. Then human beings in a much reduced number, will celebrate their common divinity in 'Holy Cities.'

Change is the order of the day. The Elohim and Archangels will help you transition, to forgive or not, to leave off what is no longer true and viable to hold as your idea of reality. It is you who must pass over.

When you live for purpose, though it not be for the ascension; embodiment after each, the soul will through this Christ walk become, more and more, wedded to Christ.
