

The Daily Presence of Archangels and Elohim

Taught By
Archangels, Elohim and others of Hierarchy
of Page 2h of *A Bible Story*

As a member of this Church, you are asked to be in the service to call to Saint Michael—that you will appeal to him in each hour of the day you are vulnerable and in need of protection.

Archangel Michael says, "Blessed hearts of light, it is the office of the angels to protect the people of light. And I demand in the ray of purity, that you understand your divine and holy office as devotees of the Mother flame, as devotees of the ascension flame, to protect Life in its fullest manifestation using decrees to the Light daily, calling to the antahkarana of light of—the Archangels, Elohim and hierarchy of light. Calling—to God—does not suffice for full protection."

"You will find that the society you live in interferes with your life by the infiltration of substances, chemical or organic in nature and origin, that affect the distribution and flow of light and the raising up of that light. Understand why you ought give the dynamic decree to the Archangels specifically for the guarding of life against all intrusion of demons and entities, and all other substances harmful to humans on earth in defense of the etheric, mental, emotional and physical bodies."

Archangel Michael says, "Pursue the course of defense and see clearly that this lineage, teaching and mission must be defended. And you ought to consider yourselves your own individual safety, for we would not have you left without your own life preserver."

He says, "Now I desire that you to show forth the tradition of the long service to my heart of the saints in white that you will appeal to me in each hour of the day when there come to your attention those points of vulnerability."

Decrees form a matrix of light, a rhythm and a sound that counteracts what is discordant through sound, to be meeting the same levels of vibratory rate and frequency in the earth. This sound travels into areas for the holding of the harmony through sound by the Elohim of God.

Archangel Michael says, "Without this protection, you are vulnerable, the force will know it, and you will find yourself in vulnerability."

I command you, then, in the name of
the Archangel of the Will of God—
the captain of seraphic bands and—

the one who leads the armies in heaven—
of even the Lord Sanat Kumara—

I command you, then, to decree for the protection of the holy office of the lightbearers of the will of God and of the nations who worship and practice the Christ teachings to lead the world in the victory over sin and death and the diseases of the body temple and the infiltration of totalitarian movements and the desecration of the abundant life of the rock of Christ."

The Daily Presence of Archangels and Elohim

Let us call for the protection of the flame of hope and faith and charity and purity and ministration. Let us call to all of the seven legions of angels of the mighty Archangels—

- Michael and Faith
- Jophiel and Christine
- Chamuel and Charity
- Gabriel and Hope
- Raphael Mother Mary
- Uriel and Aurora
- Zadkiel and Amethyst

to protect the people who can save this nation. Let us call to the Elohim—

- Hercules and Amazonia
- Apollo and Lumina
- Heros and Amora
- Purity and Astrea
- Cyclopea and Virginia
- Peace and Aloha
- Arcturus and Victoria

who are the builders of form. Let us call to the mighty legions of Justinus for the seraphim to guard the altar of our heart and the church altar.

This is your planet. It belongs to you, as it belongs to your Lord Sanat Kumara. You ought to know it well. Understand the conditions upon it.

The pollution of the planet is something that is a race against the very life and heartbeat of our own. And we are concerned that those who have the secrets of chemical warfare or even of nuclear fission or of the manipulation of microbes are abroad on the earth and could use these very things against certain segments of the population."

Archangel Michael says, "We would direct your eye as well—carefully, in detail, beginning with your home and your person and its protection for communities. I trust that my words now lead you to a further probing of all areas of life so that you can realize that, as the eye of God and of the archangels is upon you."
